Late Application At Vaal University Of Technology:

Innovative Developments in Virtual and Physical Prototyping Paulo Jorge Bartolo, 2011-09-16 Innovative Developments in Virtual and Physical Prototyping presents essential research in the area of Virtual and Rapid Prototyping. The volume contains reviewed papers presented at the 5th International Conference on Advanced Research in Virtual and Rapid Prototyping hosted by the Centre for Rapid and Sustainable Product Development of the Polyt. **Predictive Intelligence Using Big Data and the Internet of Things** Gupta, P.K., Ören, Tuncer, Singh, Mayank, 2018-12-28 With the recent growth of big data and the internet of things IoT individuals can now upload, retrieve, store and collect massive amounts of information to help drive decisions and optimize processes. Due to this, a new age of predictive computing is taking place and data can now be harnessed to predict unknown occurrences or probabilities based on data collected in real time. Predictive Intelligence Using Big Data and the Internet of Things highlights state of the art research on predictive intelligence using big data, the IoT and related areas to ensure quality assurance and compatible IoT systems. Featuring coverage on predictive application scenarios to discuss these breakthroughs in real world settings and various methods, frameworks, algorithms and security concerns for predictive intelligence, this book is ideally designed for academicians, researchers, advanced level students and technology developers. **Student Movements in Late Neoliberalism** Lorenzo Cini, Donatella della Porta, César Guzmán-Concha, 2021-08-22 This book inquires into the global wave of student mobilizations that have arisen in the aftermath of the economic crisis of 2008, accounting for their historical and sociological significance. More specifically, its eleven chapters explore the role of students as political actors, their ability to build effective organizations to make political alliances with other actors and to win public consensus, as well as their impact on cultural, political and policy outcomes. To do so, the volume examines case studies in England, Chile, South Africa, Quebec and Hong Kong, covering Europe, Africa, Asia and North and Latin America. Grouped into two major sections, the collection covers the organizational structures of student movements and their alliances and outcomes. Ultimately, this volume examines the understudied political aspects of student unrest, exploring how student mobilizations driven by indebtedness, precariousness, the corporatization of the university and other issues correspond to larger processes of change with wider implications in society. **Corrupted** Jonathan D Jansen, 2023-02-01 In South African higher education, the images of dysfunction are everywhere: Student protests, Violence, Police presence, Rubber or real bullets, Class disruptions, Burning tyres, Damaged buildings, Injury and sometimes death. Reports of wholesale corruption. Year after year, often in the same set of universities, the problem of routine instability seems insoluble. The financial, academic and reputational costs of ongoing dysfunction are high, especially for those universities caught up in the never ending struggle to overcome apartheid legacies. Any number of explanations have been ventured, including a lack of resources, shortage of capacity, rural location, corrupt officials and endemic conflict. Corrupted takes a deeper look at dysfunction in an attempt to unravel the root causes in a sample of South

African universities At the heart of the problem lies the vexed issue of resources or more pertinently the relationship between resources and power who gets what and why Whatever else it aspires to be commonly a place of teaching learning research and public duty a university in an impoverished community is also a rich concentration of resources around which corrupt staff students and those outside of campus all vie for access Taking a political economic approach Jonathan Jansen describes the daily struggle for institutional resources and offers accessible sensible insights He argues that the problem won't be solved through investments in capacity building alone because the combination of institutional capacity and institutional integrity contributes to serial instability in universities Rather durable solutions would include the depoliticisation of university councils and appointments of academics with integrity and capacity to manage and lead these fragile institutions This groundbreaking and long overdue study will offer a promising way forward for universities to better serve their communities and the country more broadly
