**The Green Book of Language Revitalization in Practice** Leanne Hinton, Kenneth Hale, 2013-06-13 With world wide environmental destruction and globalization of economy a few languages especially English are spreading rapidly in use while thousands of other languages are disappearing taking with them important cultural philosophical and environmental knowledge systems and oral literatures We all stand to suffer from such a loss none more so than the communities whose very identity is being threatened by the impending death of their languages In response to this crisis indigenous communities around the world have begun to develop a myriad of projects to keep their languages alive This volume is a set of detailed accounts about the kind of work that is going on now as people struggle for their linguistic survival It also serves as a manual of effective practices in language revitalization Following are the key features 23 case studies of language revitalization in practice from Native American languages Australian languages Maori Hawaiian Welsh Irish and others written primarily by authors directly involved in the programs short introductions situate the languages to help make the languages more real in the minds of readers each chapter gives a detailed overview of the various kinds of programs and methods in practice today introductions and maps for each of the languages represented familiarize the reader with their history linguistic structure and sociolinguistic features and strong representation in authorship and viewpoint of the people and communities whose languages are threatened gives the readers an inside understanding of the issues involved and the community internal attitudes toward language loss and revitalization This book was previously published by Academic Press under ISBN 978 01 23 49354 5 *The Waterfront* Danny Martineau Jr., 2013-12-17 While growing up I was fascinated with the world around me I had an admiration for animals and a love for both the food and culture of the time Being raised on a campground in rural southern New England was exciting but transitioning to city life was challenging It was difficult for me to let go of the 1970s I felt it was the best decade to be a kid No matter what challenges the future would bring I always found myself returning to the woods to find solitude The vast campground teeming with wildlife manifests itself in both majestic beauty and eerie encounters It is a splendid forum for the exploration of youngsters full of imagination The waterfront is the defining feature of the campground the epicenter of activity like the sea it is both aesthetic and haunting Somehow the waterfront possesses an intrinsic quality that is a crucial ingredient in both creating and preserving memories it is truly the thread that binds the novel together **The Publisher** ,1914 **The Journal of Education** ,1924 *British Books* ,1914 The British National Bibliography Arthur James Wells, 1969 **Solar power feed-in tariffs** Great Britain: Parliament: House of Commons: Energy and Climate Change Committee, Great Britain Parliament. House of Commons Environmental Audit Committee, 2011-12-22 This report finds that the Government is undermining confidence in energy policy and hurting the UK solar industry by rushing through panicked changes to Feed in Tariffs FiTs without adequate notice to consumers and installers alike The tariff rates for domestic sized solar panels are to be reduced from 43 3p to 21p per kilowatt hour of

electricity produced from April 2012 However installations had to be completed and registered on the scheme by 12 December 2011 to receive the higher 43 3p rate for the full 25 years contract The suddenness of these changes means that some households have been forced to cancel planned solar panels and face losing their deposits Many local authority and community renewable energy schemes have been cancelled Plans to require homes to meet a C rated energy efficiency standard before they can receive solar FiTs will limit access to wealthier households and 86 per cent of homes would need to be better insulated before they could qualify for the scheme under the Government s proposals The report calls on the Government to develop a system to review and adjust FiT rates in an orderly and timely way consider alternative energy efficiency requirements to avoid devastating the industry design a community tariff that takes in to account the wider impacts on community groups and social housing projects investigate how the FiTs scheme could be used to encourage solar panel manufacturing in the UK require electricity suppliers to provide annual returns on how much FiTs have added to annual energy bills
