Assessing Academic Literacy in a Multilingual Society Albert Weideman,John Read,Theo du Plessis,2020-11-02 South
 African universities face major challenges in meeting the needs of their students in the area of academic language and
 literacy The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a
 minority of the national population are native speakers of these languages Nine other languages can be media of instruction
 in schools which makes the transition to tertiary education difficult enough in itself for students from these schools The focus
 of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to
 exclude students from higher education but rather to identify those who would benefit from further development of their
 ability in order to undertake their degree studies successfully The volume also aims to bring the innovative solutions
 designed by South African educators to a wider international audience **Air Force Magazine** ,2008 **From GCSEs to**
EBCs Great Britain. Parliament. House of Commons. Education Committee,2013 The Government s plans for replacing
 GCSEs with new English Baccalaureate Certificates in some subjects is trying to do too much too fast Introducing several
 fundamental changes at the same time and to a tight timetable will jeopardise the quality of the reforms and may threaten
 the stability of the wider exam system GCSEs need significant improvements in order to restore public confidence in the
 exam system but the Government still needs to make the case that the GCSE brand is so discredited that it is beyond repair
 MPs are also concerned about the impact of the changes on subjects outside the English Baccalaureate where students will
 be taking GCSEs for some time to come according to the Government s plans The report also questions how well the
 Government s proposals will serve lower attaining pupils who are often the most disadvantaged There is no evidence that the
 proposed changes will help to tackle under achievement or narrow the attainment gap between the richest and poorest
 students any more effectively than GCSEs The Government is also called upon to re think its plans for a Statement of
 Achievement specifically for lower attaining pupils MPs agree that changes are needed to the way in which exams are run
 but they raise serious concerns about franchising subjects to exam boards The report is critical of the Government s decision
 to abolish some GCSEs before publishing the outcomes of the National Curriculum Review and its proposed changes to the
 school accountability system MPs also note the wide ranging stakeholder opposition to many of the Government s proposals
