Travail et salaire Georges RENAUD (Rédacteur au Ministère de l'Agriculture et du Commerce.), 1868 *History of European Morals from Augustus to Charlemagne* William Edward Hartpole Lecky, 1869 History of European Morals William Edward Hartpole Lecky, 1869 **History of European Morals from Augustus to Charlemagne** William Edward Hartpole Lecky, 2022-06-05 Reprint of the original first published in 1868 History of European Morals from Augustus to Charlemagne William Edward Hartpole Lecky, 1876 **History of European Morals from Augustus to Charlemagne by William Edward Hartpole Lecky**, 1869 Culture of Enlightening Jeffrey D. Burson, 2019-08-01 Recent scholarly and popular attempts to define the Enlightenment account for its diversity and evaluate its historical significance suffer from a surprising lack of consensus at a time when the social and political challenges of today cry out for a more comprehensive and serviceable understanding of its importance This book argues that regnant notions of the Enlightenment the Radical Enlightenment and the multitude of regional and religious enlightenments proposed by scholars all share an entangled intellectual genealogy rooted in a broader revolutionary culture of enlightening that took shape over the long arc of intellectual history from the waning of the sixteenth century Reformations to the dawn of the Atlantic Revolutionary era Generated in competition for a changing readership and forged in dialog and conflict dynamic and diverse notions of what it meant to be enlightened constituted a broader culture of enlightening from which the more familiar strains of the Enlightenment emerged often ironically and accidentally from originally religious impulses and theological questioning By adapting for the first time methodological insights from the scholarship of historical entanglement l histoire crois e to the study of the Enlightenment this book provides a new interpretation of the European republic of letters from the late 1600s through the 1700s by focusing on the lived experience of the long neglected Catholic theologian historian and contributor to Diderot s Encyclop die Abb Claude Yvon The ambivalent historical memory of Yvon as well as the eclectic and global array of his sources and endeavors Burson argues can serve as a gauge for evaluating historical transformations in the surprisingly diverse ways in which eighteenth century individuals spoke about enlightening human reason religion and society Ultimately Burson provocatively claims that even the most radical fruits of the Enlightenment can be understood as the unintended offspring of a revolution in theology and the cultural history of religious experience **Selected Critical Studies of Baudelaire** Charles Baudelaire, 2015-02-19 Originally published in 1949 this book contains the French text of various essays by Baudelaire The essays cover a range of topics from Edgar Allen Poe to Delacroix and Madame Bovary and the majority are taken from Baudelaire s 1868 publication L art romantique Parm e provides an introduction examining Baudelaire s views as revealed in the essays as well as commenting on Baudelaire s style This book will be of value to anyone with an interest in

Faith and Freedom in Galatia and Senegal reads Galatians 2 11 15 and 3 26 29 through the lens of the 19th 20th century experiences of French colonialism by the Diola people in Senegal West Africa and portrays the Apostle Paul as a sociopostcolonial hermeneut who acted on his self understanding as God s messenger to create through faith in the cross of Christ free communities a self definition that is critical of ancient Graeco Roman and modern colonial lore that justify colonization as a divine mandate Aliou C Niang ingeniously compares the colonial objectification of his own people by French colonists to the Graeco Roman colonial objectifications of the ancient Celts Gauls Galatians and Paul s role in bringing about a different portrayal Marivaux E. J. H. Greene, 1965-12-15 The last thirty years have seen a renewed interest in the novels plays and essays of Marivaux Each year more of his work is made available to the public in partial editions More and better

studies have appeared superseding the old and in the last thirty years almost all of his plays have been performed Today no order of his work remains unexplored our knowledge of his life which had been until recently a tissue of fancy and anecdote has been enhanced by the discovery of a few facts This critical study of the entire body of Marivaux's writings sets out to tell whether this attention represents a securely established place for Marivaux among the great French writers or simply a vogue It consists of a careful analysis of the individual works in chronological order rather than in systematic groups as is customary showing the development of Marivaux's thinking and the intimate relationship among the plays novels and essays of any given period A history of the reception of the works by scholars and critics from Marivaux's time to the present presents succinctly the historical perspective through which the modern reader may understand the long indifference to Marivaux in France and his contemporary discovery Professor Greene's work will be of great value to all students of the eighteenth century in France Because of his lively interest in the theatre arts it will also be valuable for directors planning to produce the plays of Marivaux

Logos of Phenomenology and Phenomenology of the Logos. Book One Anna-Teresa Tymieniecka, 2006-06-30 During its century long unfolding spreading in numerous directions Husserlian phenomenology while loosening inner articulations has nevertheless maintained a somewhat consistent profile As we see in this collection the numerous conceptions and theories advanced in the various phases of reinterpretations have remained identifiable with phenomenology What conveys this consistency in virtue of which innumerable types of inquiry scientific social artistic literary may consider themselves phenomenological Is it not the quintessence of the phenomenological quest namely our seeking to reach the very foundations of reality at all its constitutive levels by pursuing its logos Inquiring into the logos of the phenomenological quest we discover indeed all the main constitutive spheres of reality and of the human subject involved in it and concurrently the logos itself comes to light in the radiation of its force Tymieniecka *An Introduction to the French Language* Alphonse Naus Van Daell, 1893
