The Moneypower Continuum Francis X. Healy Jr., 2013-07 Take a critical view of the institutions that affect our everyday lives with this extended essay The most important of these is the modern day corporation which continues to resist social control despite an ability to adapt to the environment like no other entity in human history Corporations continue to explode with power and religious educational and governmental organizations are looking to them as examples An increasing number of entities are learning how to conduct themselves by looking at their corporate counterparts and as a result they are no longer fulfilling their true purposes Author Francis X Healy Jr examines the implications of these disturbing developments Discover why institutions continue to miss expectations why society suffers as a result of corporate models and how money and power interact in problematic ways The pursuit of money and power is stifling the true purposes of institutions with honorable objectives Many groups that once carried at least a facade of being above it all are now stuck in the moneypower continuum if something doesn't change soon the consequences will be devastating

What she learns about Haiti's proud history as the world's first black republic with its even prouder people is one thing, but what she learns about her own family is another. Suddenly the secrets *Alaine*'s mom has been keeping, including a family curse that has spanned generations, can no longer be avoided. It's a lot to handle without even mentioning that *Alaine* is also working for her aunt's nonprofit which sends underprivileged kids to school and boasts one annoyingly charming intern. A New York Times bestselling author returns with the latest installment in the addictive Frankie Elkin series in which Frankie is called to Tucson, Arizona to find a missing Afghan refugee whose friend suspects she is in grave danger before it is too late. Timely and completely gripping. Louise Penny New York Times bestselling author. Recent Afghan refugee and young mother Sabera Ahmadi was last seen exiting her place of work three weeks ago. The local police have yet to open a case while her older domineering husband seems unconcerned. At the insistence of Sabera's closest friend, missing persons expert Frankie Elkin agrees to take up the search just in time for a video of Sabera to surface showing her walking away from the scene of a brutal double murder. Frankie quickly notes there's much more to the Ahmadi family than meets the eye. The father, Isaad, is a brilliant mathematician. Sabera, a gifted linguist, and their little girl, Zahra, has an uncanny ability to remember anything she sees. Which, given everything that has happened during the girl's short life, may be a terrible curse. When Isaad also disappears under mysterious circumstances and an attempt is made on Zahra's life, Frankie realizes she must crack the code of this family's horrific past. Someone is coming for the Ahmadi's. And violence is clearly an option. When everything is on the line, how far would you go to protect the ones you love? Frankie is about to find out. *The Expibasketics and Intrigues of Love* Ateh-Afac Fossungu, 2016-09-01. Using expibasketical theory and findings, this book attempts to understand and explain some of the wonders of love and the impacts these have on the other human institutions such as marriage and family that are supposed to be erected on love and understanding. Love is a phenomenon that is hard to correctly master, most probably because it is loaded with a lot of uncertainties. This simple fact must be the reason behind the commonplace saying that love is blind, a statement that can have several interpretations, one of which being that it is hard to read or know exactly what is on the other party's mind. Love thus becomes not only an intriguing

feeling but also potentially full of intrigues Can love be so blind to realities and still be love The book answers many of such queries by expanding and delineating the frontiers of love and thence marriage and family
