

JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

English Paper 2 Memo November 2013:

Reappraising the Seicento Andrew Cheetham, Joseph Knowles, Jonathan Wainwright, 2014-03-26 Reappraising the Seicento presents new perspectives on some relatively well researched areas of music history and adumbrates some more arcane aspects of the period offered by fledgling scholars and early career researchers in the field of musicology The scope of the title has the potential to warrant a tome on the subject but it is not the intention to provide a comprehensive survey of music in the seventeenth century Instead five essays are presented divided into two sections which represent the research activities of young scholars with an interest in the seicento In the first part of this book compositional procedure in seicento Italy is examined through two different analytical procedures Musical styles and fashions changed considerably throughout Europe in the seventeenth century at the forefront of these changes were Italian composers and performers who found fame and influence in their native countries as well as abroad In the second part of this book the dissemination of Italian music in seventeenth century England and the appropriation and assimilation of contemporary Italian compositional techniques by English composers are considered The phenomenal interest shown in Italian music by English patrons and musicians of the seventeenth century is placed into context and is revealed to be part of a larger historical trend ENGLISH FOR

Stemmers, 2017-03-30 Who analyses children s screen content and media use in Arab countries and with what results

Children defined internationally as under 18s account for some 40 per cent of Arab populations and the proportion of under fives is correspondingly large Yet studies of children s media and child audiences in the region are as scarce as truly popular locally produced media content aimed at children At the very time when conflict and uncertainty in key Arab countries have made local development and diversification of children s media more remote it has become more urgent to gain a better understanding of how the next generation s identities and worldviews are formed This interdisciplinary book is the first in English to probe both the state of Arab screen media for children and the practices of Arabic speaking children in producing as well as consuming screen content It responds to the gap in research by bringing together a holistic investigation of institutions and leading players children s media experiences and some iconic media texts With children s media increasingly linked to merchandising which favours US based global players and globalizing forces this volume provides a timely insight into tensions between differing concepts of childhood and desirable media messages *Camelot and Canada* Asa

McKercher, 2016-06-20 In 1958 Senator John F Kennedy of Massachusetts proclaimed at the University of New Brunswick that Canada and the United States have carefully maintained the good fences that help make them good neighbours He could not have foreseen that his presidency would be marked not just by some of the tensest moments of the Cold War but also by the most contentious moments in the Canadian American relationship Indeed the 1963 Canadian federal election was marked by charges that the US government had engineered a plot to oust John Diefenbaker Canada s nationalist prime minister *Camelot and Canada* explores political economic and military elements in Canada US relations in the early 1960s Asa McKercher challenges the prevailing view that US foreign policymakers including President Kennedy were imperious in their conduct toward Canada Rather he shows that the period continued to be marked by the special diplomatic relationship that characterized the early postwar years Even as Diefenbaker s government pursued distinct foreign and economic policies American officials acknowledged that Canadian objectives legitimately differed from their own and adjusted their policies accordingly Moreover for all its bluster Ottawa rarely moved without weighing the impact that its initiatives might have on Washington At the same time McKercher illustrates that there were significant strains on the bilateral relationship which occurred as a result of mounting doubts in Canada about US leadership in the Cold War growing Canadian nationalism and Canadian concern over their country s close economic military and cultural ties with the United States While personal clashes between the two leaders have become mythologized by historians and the public alike the special relationship between their governments continued to function *Theorizing the European Neighbourhood Policy* Sieglinde Gstöhl, Simon Schunz, 2016-12-19 Despite growing scholarly interest in the EU s flagship policy towards its Eastern and Southern neighbours serious attempts at theory building on the European Neighbourhood Policy ENP have been largely absent from the academic debate This book aims at contributing to fill this research gap in a three fold manner first and foremost it aims at theorizing the ENP as such explaining the origins development and effectiveness of this policy Building on this effort it

also pursues the broader objective of addressing certain shortcomings in EU external relations theory and even beyond in International Relations theory Finally it aspires to provide new insights for European policy makers It is one of the first volumes to provide different theoretical perspectives on the ENP by revisiting and building bridges between mainstream and critical theories stimulating academic and policy debates and thus setting a novel less EU centric research agenda This text will be of key interest to scholars students and practitioners in EU external relations EU foreign policy the European Neighbourhood Policy and more broadly in European Union Politics and International Relations **The Poems of T. Cole, 2013-10-15 This book is concerned with both the national security concerns of Asian maritime nations and the security of the Asian maritime commons. These are defined as the Pacific and Indian Oceans and associated seas, bays, and gulfs with their included sea lines of communication (SLOCs). The most useful geographical designation for maritime Asia is the Indo-Pacific. Bernard Cole provides both a survey of the maritime strategies of the primary nations of the Indo-Pacific region and an evaluation of the domestic and international politics that drive those strategies. The United States, Canada, Russia, Japan, North Korea, South Korea, China, the Philippines, Brunei, Indonesia, Vietnam, Singapore, Malaysia, Myanmar, India, Pakistan, Iran, the smaller Indian Ocean, and Persian Gulf states are all surveyed and analyzed. The United States, Japan, China, and India not surprisingly draw the most attention given their large modern navies and distant strategic reach. The author concludes that the United States remains the dominant maritime power in this huge region stretching from Canada to the Persian Gulf despite its lack of a traditionally strong merchant marine. U.S. maritime power remains paramount due primarily to its dominant navy. The Chinese naval modernization program deservedly receives a good deal of public attention, but Cole argues that on a day-to-day basis the Japanese Maritime Self-Defense Force, as its navy is named, is the most powerful maritime force in Far Eastern waters, while the modernizing Indian Navy potentially dominates the Indian Ocean. In fact, a focus of this work is the exemplary description of all the region's navies, with the author noting the naval arms race that is underway, particularly in the area of submarine acquisition. Cole is careful to couch this phenomenon in the regional concerns about Chinese naval expansion and the desire to ensure a continued massive U.S. naval presence. The current naval developments in the region evince elements of a naval arms race but lack the coherent maritime strategies to make naval developments dangerous to regional peace and security. Most telling will be whether United States power and focus remain on the region while adjusting to continued Chinese maritime power in a way acceptable to both nations. No other current or recent work provides such a complete description of the Indo-Pacific region's navies and maritime strategies while analyzing the current and future impact of those forces.
