Ethical Models and Applications of Globalization: Cultural, Socio-Political and Economic Perspectives Wankel, Charles, 2011-11-30 Continued growth of the global market necessitates research that establishes norms and practices and ensures the appropriate level of ethical concern for those who contribute to the process of globalization and are being affected by globalization Ethical Models and Applications of Globalization Cultural Socio Political and Economic Perspectives presents the work of researchers who seek to advance the understanding of both the ethical impact of globalization and the influence of globalization on ethical practices from various cultural socio political economic and religious perspectives The aim of this reference work is to put forward empirically grounded methods for understanding both the effect that the process of globalization has on ethical practices in organizations and how this research can shape the course of economic globalization

The Heart and Soul of America: Exploring our Passion for Baseball Loraine Padilla, Embark on a captivating journey through the heartland of America where the love of baseball weaves an intricate tapestry of history culture and national identity In this comprehensive volume you ll delve into the origins and evolution of the beloved sport discovering its deep rooted connection to the American psyche From the humble beginnings on sandlots and rural fields to the roar of the crowd in iconic stadiums baseball has witnessed the triumphs and struggles of generations Through vivid storytelling and

meticulous research this book unravels the social cultural and economic factors that have shaped the game and its enduring popularity Explore the legendary figures who have graced the diamond from Babe Ruth to Jackie Robinson whose contributions not only elevated the sport but also transcended racial and societal boundaries Witness the transformative impact of baseball on American society as it fostered a sense of unity provided opportunities for marginalized communities and became a symbol of hope and resilience Delve into the intricacies of the game s rules strategies and unwritten rituals that have been passed down through generations

Handbook of Research on Digital Citizenship and Management During Crises Öngün, Erdem,Pembecioğlu, Nilüfer,Gündüz, Uğur,2021-11-12 Today individuals and societies of the digital age are no longer constrained by conventional contexts narratives settings and status they are surrounded and guided by digital tools and applications leading to a digital revolution That digital revolution changed the individual along with living styles and cultural and social relations among people Moreover these revolutionary changes and the increasing capabilities of smart devices have brought today s people a new kind of public sphere with questionable freedoms but also restraints in its digital dimensions Now it is possible to talk about the digital dimension and equivalence of all the concepts that are both individually and socially constructed in a new digital world The Handbook of Research on Digital Citizenship and Management During Crises covers many different components engaged with digital world responsibilities The authors assess the position status and reactions of the new citizen against future catastrophes Covering topics such as epistemic divide internet addiction and new media technologies this text serves as a cutting edge resource for researchers scholars lawmakers trainers instructional designers university libraries professors students and academicians

Personality, Human Development, and Culture Ralf Schwarzer,Peter Frensch,2010-06-17 These two volumes present the main contributions from the 29th International Congress of Psychology held in Berlin in 2008 and are written by international leaders in psychology from around the world The authors present a variety of approaches and perspectives that reflect cutting edge advances in psychological science Personality Developmental Social and Cultural Issues provides an overview of advances in several areas of psychology such as clinical health social developmental and cross cultural psychology One section of the volume is dedicated solely to emotions and health and addresses state of the art work on the regulation of self health social relations and emotions such as passion Other sections deal with development and personality issues as well as conceptual cultural and ethnic approaches to modern psychology The global perspective of this collection illustrates research being undertaken on all five continents and emphasizes the cultural diversity of the contributors This book will be an invaluable resource for researchers professionals teachers and students in the field of psychology

Does Playing Video Games Make Players More Violent? Barrie Gunter,2016-06-21 This book is an academic work which reviews and critiques the research literature concerning violent games and their alleged effects on players It examines the debates about the potential effects of these games and the divisions between scholars working in the field It places the research on violent video games

in the longer historical context of scholarly work on media violence It examines research from around the world on the nature of video games and their effects It provides a critique of relevant theories of media violence effects and in particular theories developed within the older media violence literature and then considers how useful this and newer scholarly work might be for policy makers and regulators The book identifies where gaps exist in the extant literature and where future research attention might be directed

The Psychology of Passion Dr Robert J. Vallerand, 2015-05-01 Winner of the 2017 APA William James Book Award The concept of passion is one we regularly use to describe our interests and yet there is no broad theory that can explain the development and consequences of passion for activities across people's lives In *The Psychology of Passion* Robert J Vallerand presents the first such theory providing a complete presentation of the Dualistic Model of Passion and the empirical evidence that supports it Vallerand conceives of two types of passion harmonious passion which remains under the person's control and obsessive passion which controls the person While the first typically leads to adaptive behaviors the obsessive form of passion leads to less adaptive and at times maladaptive behaviors Vallerand highlights the effects of these two types of passion on a number of psychological phenomena such as cognition emotions performance relationships aggression and violence He also discusses the development of passion and reviews a range of literature on passion for activities

The Myth of Harm Sarah Cleary, 2022-12-01 Choice Outstanding Academic Title 2023 *The Myth of Harm* engages and analyses controversies generated by horror that examines some of the most high profile media debates around the issue of whether or not horror texts corrupt children The horror genre has endured a long and controversial success within popular culture Fraught with accusations pertaining to its alleged ability to harm and corrupt young people and indeed society as a whole the genre is constantly under pressure to suppress that which has made it so popular to begin with its ability to frighten and generate discussion about society's darker side Recognising the circularity of patterns in each generational manifestation of horror censorship *The Myth of Harm* draws upon cases such as the Slenderman stabbing and the James Bulger murder amongst many others in order to explore the manner in which horror has been repeatedly cast as a harmful influence upon children at the expense of scrutinising other more complex social issues Focusing on five major controversies beginning in the 1930s Golden Age of Horror Cinema and ending on a more contemporary note with Cyber Gothic horror this book identifies and considers the various myths and falsehoods surrounding the genre of horror and question the very motivation behind the proliferation and dissemination of these myths as scapegoats for political and social issues platforms for moral entrepreneurs and tools of hyperbole for the news industry
