Rubin,2012-12-06 It was just over 12 years ago that we first sat down together to talk about psychological traps In the relative calm of late afternoons feet draped casually over the seedy furnishings of the Tufts psychology department we entertained each other with personal anecdotes about old cars times spent lost on hold and the Shakespearean concerns of Rosencrantz and Guildenstern Lord and Lady Macbeth and other notables Eventually informed by our many illustrations and the excitement that their repeated telling engendered in the two of us we began to move more formally into trap analysis How do you know a trap when you see one What are the shared characteristics of all psychological traps regardless of origin scope or complexity What are the key conceptual elements in any effort to differentiate among the traps of the world What factors make us more or less apt to fall prey to entrapment These were some of the questions that arose during these initial meetings A series of weekly meetings stretched over the ensuing years interrupted temporarily by various exigencies and led eventually to a research program that grew to involve a number of students and faculty colleagues At the time of course we did not regard our work as a research program rather even as our experiments proceeded to answer two burning questions at a time they managed to raise three or four new issues that we had not anticipated before **Africa's Diabolical**

**Entrapment** Frisky Larr,2013 Africa s Diabolical Entrapment exposes Sub Saharan Africa as a region that is wantonly bruised it its trap between two major religions in the continent namely Christianity and Traditional Animism It compares religious beliefs in Africa with historical religious developments in other continents of the world to identify where Black Africa is getting it wrong While advancing the central message that the belief in Witchcraft Demigods Spirits of the dead the Ancestors and Jesus Christ is not peculiar to Africa it also emphasizes that the pervasiveness of these beliefs in today s Africa poses a serious challenge to the intellectual growth of the society in general Its conclusive projections and recommendations are definitely a subject of interest to stakeholders in the process of starting a long overdue debate in a continent that is waiting to find its place among progressive nations *Entrapment Neuropathy of the Lumbar Spine and Lower Limbs*

Interrogations, Confessions, and Entrapment G. Daniel Lassiter, 2013-11-11 Coerced confessions have long been a staple of TV crime dramas and have also been the subject of recent news stories. The complexity of such situations however is rarely explored even in the scientific literature. Now in softcover *Interrogations, Confessions and Entrapment* remains one of the best syntheses of the scientific, legal and ethical findings in this area, uncovering subtle yet powerful forces that often compromise the integrity of the criminal justice system. Editor G. Daniel Lassiter identifies the exposure of psychological coercion as an emerging frontier in legal psychology, citing its roots in the third degree approach of former times and noting that its techniques carry little scientific validity. A team of psychologists, criminologists and legal scholars asks and goes a long way toward answering important questions such as: What forms of psychological coercion are involved in interrogation? Are some people more susceptible to falsely confessing than others? What are the effects of psychological manipulation on innocent suspects? Are coercive tactics ever justified with minors? Can jurors recognize psychological coercion and unreliable confessions? Can entrapment techniques encourage people to commit crimes? What steps can law enforcement take to minimize coercion? Throughout this progressive volume, readers will find important research-based ideas for educating the courts, changing policy and implementing reform, from improving police interrogation skills to better methods of evaluating confession evidence. For the expert witness, legal consultant or student of forensic psychology, this is material whose relevance will only increase with time.

**The Indian Journal of English Studies**, 2003 Escaping Cult Entrapment Gabriella Gallo, 2012 *Escaping Cult Entrapment* tells a compelling story beginning with a young teenage couple in despair with two babies and no means to support their family. The story focuses on Sophia, the second oldest daughter born in 1968. The couple falls victim to the enticements of the Children of God Cult and the promise of a new life in the early 1970s. The family becomes trapped by the cult's brainwashing and manipulation in a decade of widespread hippie movements. As the family grows, they live a life full of bewildering events that they consider honorable in the missionary work they perform based on their desire to serve God but awful in tormenting events driven by the cult's deception and social isolation. The father, Sebastian, is increasingly entangled in the cult's web of lies and becomes alienated from his wife, Elizabeth, and their seven young children. With remarkable strength and faith, Elizabeth carries out her decision to leave her husband and the cult. She conquers her fears in order to provide a better life for her and her children. Over the next 10 years, Sophia's family endures a journey of chaos and triumph as they fight to integrate back into society. With little money, they have to figure out how to live their new life. At the same time, Elizabeth shows them the important things in life, knowing that you don't need money to have a loving home. The family is determined to overcome tremendous hardship. They have to adapt and survive as they are faced with emotional, social and financial challenges. Elizabeth teaches them strong will and that their circumstances are only temporary. Sophia's experiences are tragic during her younger years but inspirational as she grows into an adolescent and young adult.
