Firmin Sam Savage, 2010-11-16 I had always imagined that my life story would have a great first line something like Nabokov's *Lolita* light of my life fire of my loins or if I could not do lyric then something sweeping like Tolstoy's *All happy families are alike but every unhappy family is unhappy in its own way* When it comes to openers though the best in my view has to be the first line of Ford Madox Ford's *The Good Soldier* This is the saddest story I have ever heard So begins the remarkable tale of Firmin the rat Born in a bookstore in a blighted 1960's Boston neighborhood Firmin miraculously learns how to read by digesting his nest of books Alienated from his family and unable to communicate with the humans he loves Firmin quickly realizes that a literate rat is a lonely rat Following a harrowing misunderstanding with his hero the bookseller Firmin begins to risk the dangers of Scollay Square finding solace in the Lovelies of the burlesque cinema Finally adopted by a down on his luck science fiction writer the tide begins to turn but soon they both face homelessness when the wrecking ball of urban renewal arrives In a series of misadventures Firmin is ultimately led deep into his own imaginative soul a place where Ginger Rogers can hold him tight and tattered books storied neighborhoods and down and out rats can find people who adore them A native of South Carolina Sam Savage now lives in Madison Wisconsin This is his first novel Unnatural Narrative Jan Alber, 2016-03-01 A talking body part a character that is simultaneously alive and dead a shape changing setting or time travel although impossible in the real world such narrative elements do appear in the storyworlds of novels short stories and plays Impossibilities of narrator character time and space are not only common in today's world of postmodernist literature but can also be found throughout the history of literature Examples include the beast fable the heroic epic the romance the eighteenth century circulation novel the Gothic novel the ghost play the fantasy narrative and the science fiction novel among others *Unnatural Narrative* looks at the startling and persistent presence of the impossible or the unnatural throughout British and American literary history Layering the lenses of cognitive narratology frame theory and possible worlds theory *Unnatural Narrative* offers a rigorous and engaging new characterization of the unnatural and what it yields for individual readers as well as literary culture Jan Alber demonstrates compelling interpretations of the unnatural in literature and shows the ways in which such unnatural phenomena become conventional in readers' minds altogether expanding our sense of the imaginable and informing new structures and genres of narrative engagement *Imperfect Creatures* Lucinda Cole, 2016-02-26 Lucinda Cole's *Imperfect Creatures* offers the first full length study of the shifting unstable but foundational status of vermin as creatures and category in the early modern literary scientific and political imagination In the space between theology and an emergent empiricism Cole's argument engages a wide historical swath of canonical early modern literary texts William Shakespeare's *Macbeth* Christopher Marlowe's *The Jew of Malta* Abraham Cowley's *The Plagues of Egypt* Thomas Shadwell's *The Virtuoso* the Earl of Rochester's *A Ramble in St James's Park* and Daniel Defoe's *Robinson Crusoe* and *Journal of the Plague Year* alongside other nonliterary primary sources and under

examined archival materials from the period including treatises on animal trials grain shortages rabies and comparative neuroanatomy As Cole illustrates human health and demographic problems notably those of feeding populations periodically stricken by hunger disease and famine were tied to larger questions about food supplies property laws national identity and the theological imperatives that underwrote humankind's claim to dominion over the animal kingdom In this context Cole's study indicates so called vermin occupied liminal spaces between subject and object nature and animal animal and the devil the devil and disease even reason and madness This verminous discourse formed a foundational category used to carve out humankind's relationship to an unpredictable irrational natural world but it evolved into a form for thinking about not merely animals but anything that threatened the health of the body politic humans animals and even thoughts *The Routledge Companion to Experimental Literature* Joe Bray, Alison Gibbons, Brian McHale, 2012 The Routledge Companion to Experimental Literature maps this expansive and multifaceted field with essays on the history of literary experiment from the beginning of the twentieth century to the present the impact of new media on literature including multimodal literature digital fiction and code poetry the development of experimental genres from graphic narratives and found poetry through to gaming and interactive fiction experimental movements from Futurism and Surrealism to Postmodernism Avant Pop and Flarf Shedding new light on often critically neglected terrain the contributors introduce this vibrant area define its current state and offer exciting new perspectives on its future Where the Wild Books Are Jim Dwyer, 2010-04-01 As interest in environmental issues grows many writers of fiction have embraced themes that explore the connections between humans and the natural world Ecologically themed fiction ranges from profound philosophical meditations to action packed entertainments Where the Wild Books Are offers an overview of nearly 2 000 works of nature oriented fiction The author includes a discussion of the precursors and history of the genre and of its expansion since the 1970s He also considers its forms and themes as well as the subgenres into which it has evolved such as speculative fiction ecodefense animal stories mysteries ecofeminist novels cautionary tales and others A brief summary and critical commentary of each title is included Dwyer's scope is broad and covers fiction by Native American writers as well as ecofiction from writers around the world Far more than a mere listing of books Where the Wild Books Are is a lively introduction to a vast universe of engaging provocative writing It can be used to develop book collections or curricula It also serves as an introduction to one of the most fertile areas of contemporary fiction presenting books that will offer enjoyable reading and new insights into the vexing environmental questions of our time The Spectator , 2009 **An Orphanage of Dreams** Sam Savage, 2019-01-08 Sam Savage's final book is a collection of stripped down visitations flash fictions of smoke breaks and long drives and friends who finally stop showing up The acidic tang of disappointment is here and sparks of biting insight in portraits of people and animals in all our absurdity and failed attempts at meaning As Sam says what a life The Publishers Weekly , 2006

*It Will End with Us* Sam Savage, 2014-10-20 Newsweek's Favorite Books of 2014 Praise for Sam Savage Winner of the O Henry Prize for Cigarettes Sam Savage manages to be both artful and literal minded in this faux autobiographical tale of childhood and a mother afflicted and finally driven mad by her wish for artistic success Savage writes knowingly about the uncertainties of childhood memory but creates a convincing world of sibling combat and adult pretension A wonderful absorbing novel C Michael Curtis Fiction Editor The Atlantic Monthly If the world all its hysteric noise was muted for just one minute Sam Savage is what you might be fortunate enough to hear His elegant laconism his leaps across the self evident his soft aplomb and the rarified air he bestows upon the mundane make him the only American writer worthy of the label the true eccentric Valeria Luiselli *It Will End With Us* is Sam Savage's latest deep dive into the mind and voice of a character and his most personal work yet Brick by textual brick his narrator Eve builds a memorial to the mother who raised her emotionally abandoned her and shaped her in her own image Eve's memories summon a childhood in rural South Carolina a decaying house on impoverished soil and an insular society succumbing to the influences of a wider world *It Will End With Us* is a portrait of a place full of hummingbirds and wild irises but also of frustration and grief It is the story of a family tragedy provoked by a mother's stifled ambitions and seized by the wide open gaze of a child Rarely has a novel so brief taken on so much so powerfully Sam Savage is the best selling author of *Firmin Adventures of a Metropolitan Lowlife* *The Cry of the Sloth* *Glass* and *The Way of the Dog* all from Coffee House Press A finalist for the Barnes Noble Discover Great New Writers Award Savage holds a PhD in philosophy from Yale University and resides in Madison Wisconsin **Poets & Writers**, 2007
