Patricia Johanson Patricia Johanson,1987 *Official Gazette of the United States Patent and Trademark Office* ,2002

The Oxford Guide to the Transeurasian Languages Martine Robbeets,Alexander Savelyev,2020-06-26 The Oxford Guide to the Transeurasian Languages provides a comprehensive account of the Transeurasian languages and is the first major reference work in the field since 1965 The term Transeurasian refers to a large group of geographically adjacent languages that includes five uncontroversial linguistic families Japonic Koreanic Tungusic Mongolic and Turkic The historical connection between these languages however constitutes one of the most debated issues in historical comparative linguistics In the present book a team of leading international scholars in the field take a balanced approach to this controversy integrating different theoretical frameworks combining both functional and formal linguistics and showing that genealogical and areal approaches are in fact compatible with one another The volume is divided into five parts Part I deals with the historical sources and periodization of the Transeurasian languages and their classification and typology In Part II chapters provide individual structural overviews of the Transeurasian languages and the linguistic subgroups that they belong to while Part III explores Transeurasian phonology morphology syntax lexis and semantics from a comparative perspective Part IV offers a range of areal and genealogical explanations for the correlations observed in the preceding parts Finally Part V combines archaeological genetic and anthropological perspectives on the identity of speakers of Transeurasian languages The Oxford Guide to the Transeurasian Languages will be an indispensable resource for specialists in Japonic Koreanic Tungusic Mongolic and Turkic languages and for anyone with an interest in Transeurasian and comparative linguistics more broadly
