Delightfully Disturbing Lists about the Paranormal and Unexplained Heather E. Schwartz,2025-08 Are ghosts aliens and creepy cryptids out there or are they just figments of our imaginations Lists let kids explore legends and sightings and make up their own minds **A Brief Guide to Ghost Hunting** Leo Ruickbie,2013-08-15 There has been an upsurge in books television programmes films and websites exploring the reality or otherwise of the spirit world Not since the founding of The Ghost Club in 1862 and the Society for Psychical Research in 1882 has ghost hunting been so popular Television and the internet in particular have fueled this new level of interest creating a modern media phenomenon that spans the globe But while the demand for information is high good information remains scarce A Brief Guide to Ghost Hunting leads us through the process of ghost hunting from initially weighing the first report to choosing equipment and investigating and

identifying the phenomena with an analysis of the best places to go looking methods of contacting the spirit world how to explain paranormal activity and crucially how to survive the encounter However it is also a book about ghost hunting itself drawing on 130 years of research in the cavernous archives of the Society for Psychical Research and even older history to find the earliest ghost stories A Ghost Hunting Survey makes use of interviews with those billing themselves as ghost hunters to find out their views motivations and experiences New and original research makes use of statistics to map the nebulous world of apparitions while a Preliminary Survey of Hauntings offers an analysis of 923 reported phenomena from 263 locations across the UK This is as far as possible an objective presentation of ghosts and ghost hunting It is no wonder that mainstream science largely refuses to deal with the subject it is too complicated Without trying to convince you of any viewpoint this book is intended to help you understand more

Legend and Belief Linda Dégh,2001-11-14 Industrial advancement has not changed the basic fragility of human life and the commercialization and consumer orientation of the mass media has actually helped legends travel faster and farther Legends are communicated not only orally face to face but also in the press on radio and television on countless Web sites and by e mail perpetuating new waves of the culture of fear
