project is opposed by their mostly white neighbors out of concern that it could contaminate the aquifer that is the sole source of drinking water for 400 square miles and thereby render the entire region uninhabitable The environmental justice community including many Indians charges that the waste industry is trying to exploit the poverty of the Campos and other tribes making them offers they can't refuse for projects no one else wants projects no one should want The Campos admit the danger of exploitation but contend that it is paternalistic indeed racist to assume that Indians are not smart enough to protect themselves in dealings with whites or wise enough to guard their reservation environment **Equity Predators**
