Fibkins, 2013-03-08 With budget cuts looming every year administrators and union leaders find themselves in a never ending game of promoting how good their school is and why budget cuts will derail their ongoing success The vehicle they choose for this ongoing self promotion is what William Fibkins calls the dazzle approach which focuses only on good news Overtime administrators and staff often come to believe the positive reviews of the good news process and overlook or abandon those students who don t make good news but instead act out fail cause trouble and give the school a bad name These are the bad news kids and their lives are not newsworthy This book is about the unintended consequences that can occur when the good news process becomes heavily embedded in school life a process that creates two different worlds in a school community that often prides itself on fostering unity and belonging The school media promotions may say All is well here but this positive

spin belies the divisions that breed isolation and estrangement for both the good news and bad news kids which gives rise to class warfare in the school community In a culture in which some students are valued as more worthy than others being a more worthy student can have a serious downside that is as risky as being an unworthy student This book explores these often hidden consequences and what school and community leaders need to do to right this sinking ship a ship that seems sturdy and well built to onlookers but is abusing its crew to keep afloat Some schools operate on a system which uses high achieving students as a commodity to pass school budgets and downplays the cries of troubled students to be included in their school Good news gets headlines while bad news is shifted to the back page or left out resulting in an all is well problem free picture of the school

A Little Guide for Teachers: Engaging Parents and Carers with School Emma Kell, Clemmie Stewart, 2022-10-28 A Little Guide for Teachers Engaging Parents and Carers with Schools builds on author experience and findings from the spotlight thrown on home school relationships during Covid 19 to provide teachers with effective strategies to enhance these relationships and instill confidence in teachers working with parents The Little Guide for Teachers series is little in size but BIG on all the support and inspiration you need to navigate your day to day life as a teacher Authored by experts in the field Easy to dip in and out of Interactive activities encourage you to write into the book and make it your own Fun engaging illustrations throughout Read in an afternoon or take as long as you like with it This may be pitched as a little guide but goodness me it's packed with wisdom and practical advice that any professional working in our school system will find absolute gold dust when it comes to the sometimes tricky challenge of parental engagement Building not only the authors many years of personal experience the guide draws on their own research and that of many other leaders in this field to create a superbly grounded yet optimistic set of ideas tips and reflection points I love how the authors challenge so many orthodoxies such as flipping the concept of the hard to reach family into the hard to reach school Throughout the book is an implicit thread that will be familiar to those versed in the principles and power of effective coaching exploring important topics such as building relationships listening and getting the right tone and balance in all communication This is a refreshing accessible and eminently practical guide in

an often neglected area that will be invaluable for teachers and leaders at all levels within schools Highly recommend Andy Buck best selling author speaker trainer and coach
