Red Lines Cherian George, Sonny Liew, 2021-08-31 A lively graphic narrative reports on censorship of political cartoons around the world featuring interviews with censored cartoonists from Pittsburgh to Beijing Why do the powerful feel so threatened by political cartoons Cartoons don't tell secrets or move markets Yet as Cherian George and Sonny Liew show us in *Red Lines* cartoonists have been harassed trolled sued fired jailed attacked and assassinated for their insolence The robustness of political cartooning one of the most elemental forms of political speech says something about the health of democracy In a lively graphic narrative illustrated by Liew himself a prize winning cartoonist *Red Lines* crisscrosses the globe to feel the pulse of a vocation under attack A Syrian cartoonist insults the president and has his hands broken by goons An Indian cartoonist stands up to misogyny and receives rape threats An Israeli artist finds his antiracist works censored by social media algorithms And the New York Times caught in the crossfire of the culture wars decides to stop publishing editorial cartoons completely *Red Lines* studies thin skinned tyrants the invisible hand of market censorship and demands in the name of social justice to rein in the right to offend It includes interviews with more than sixty cartoonists and insights from art historians legal scholars and political scientists all presented in graphic form This engaging account makes it clear that cartoon censorship doesn't just matter to cartoonists and their fans When the red lines are misapplied all citizens are potential victims

Underground Blake Atwood, 2021-09-28 How Iranians forged a vibrant informal video distribution infrastructure when their government banned all home video technology in 1983 In 1983 the Iranian government banned the personal use of home video technology In *Underground* Blake Atwood recounts how in response to the ban technology enthusiasts cinephiles entrepreneurs and everyday citizens forged an illegal but complex underground system for video distribution Atwood draws on archival sources including trade publications newspapers memoirs films and laws but at the heart of the book lies a corpus of oral history interviews conducted with participants in the underground He argues that videocassettes helped to institutionalize the broader underground within the Islamic Republic As Atwood shows the videocassette underground reveals a great deal about how people construct vibrant cultures beneath repressive institutions It was not just that Iranians gained access to banned movies but rather that they established routes acquired technical knowledge broke the law and created rituals by passing and trading plastic videocassettes As material objects the videocassettes were a means of negotiating the power of the state and the agency of its citizens By the time the Ministry of Culture and Islamic Guidance lifted the ban in 1994 millions of videocassettes were circulating efficiently and widely throughout the country The very presence of a video underground signaled the failure of state policy to regulate media

Embedded in the informal infrastructure even in the videocassettes themselves was the triumph of everyday people over the state

Smart Wireless Acoustic Sensor Network Design for Noise Monitoring in Smart Cities Rosa Ma Alsina-Pagès, Patrizia Bellucci, Giovanni Zambon, 2021-01-15 The Environmental Noise Directive END requires that a five year updating of noise maps is carried out to check and report on the changes that have occurred during the reference period The updating process is usually achieved using a standardized approach consisting of collecting and processing information through acoustic models to produce the updated noise maps This procedure is time consuming and costly and has a significant impact on the financial statement of the authorities responsible for providing the maps Furthermore the END requires that easy to read noise maps are made available to the public to provide information on noise levels and the subsequent actions to be undertaken by local and central authorities to reduce noise impacts In order to update the noise maps more easily and in a more effective way it is convenient to design an integrated system incorporating real time noise measurement and signal processing to identify and analyze the noise sources present in the mapping area e g road traffic noise leisure noise etc as well as to automatically generate and present the corresponding noise maps This wireless acoustic sensor network design requires transversal knowledge from accurate hardware design for acoustic sensors to network structure design and management of the information with signal processing to identify the origin of the measured noise and graphical user interface application design to present the results to end users This book is collection in which several views of methodology and technologies required for the development of an efficient wireless acoustic sensor network from the first stages of its design to the tests conducted during deployment its final performance and possible subsequent implications for authorities in terms of the definition of policies Contributions include several LIFE and H2020 projects aimed at the design and implementation of intelligent acoustic sensor networks with a focus on the publication of good practices for the design and deployment of intelligent networks in other locations

Street Smart Samuel I Schwartz,2015-08-18 On a Saturday morning in December 1973 a section of New York s West Side Highway collapsed under the weight of a truck full of asphalt The road was closed seemingly for good and the 80 000 cars that traveled it each day had to find a new way to their destinations It ought to have produced traffic chaos but it didn t The cars simply vanished It was a moment of revelation the highway had induced the demand for car travel It was a classic case of build it and they will come but for the first time the opposite had been shown to be true knock it down and they will go away Samuel I Schwartz was inspired by the lesson He started to reimagine cities most of all his beloved New York freed from their obligation to cars Eventually he found he was not alone Since the turn of the twenty first century a surreptitious revolution has taken place every year Americans are driving fewer miles And the generation named for this new century the Millennials are driving least of all Not because they can t afford to they don t want to They have better ideas for how to use their streets An urban transformation is underway and smart streets are at the heart of it They will boost property prices and personal fitness roll back years of congestion and smog and offer a transformative experience of American urban life From San Francisco to Salt Lake Charleston to Houston the American city is becoming a better and better place to be Schwartz s Street Smart is a dazzling and affectionate history of the struggle for control of American cities and an inspiring off road map to a more vibrant active and vigorous urban future

Geomedia Scott McQuire,2017-05-23 Geomedia offers critical analysis of the new possibilities and power relations emerging in the public space of contemporary cities As ubiquitous digital networks enable embedded and mobile devices to integrate place specific data with real time feedback circuits everyday experience of public space has become subject to new demands Looking beyond debates framed by the dominance of surveillance and spectacle McQuire asks how might the kind of collaborative practices that have flourished in art and online cultures be translated into urban space In the urban crisis of the 1960s Henri Lefebvre argued that the capacity for a city s inhabitants to actively appropriate the time and space of their surroundings was a critical dimension of modern democracy What does it mean to speak of the right to the city in the context of the networked city Addressing this question through a series of case studies this cutting edge text highlights the tensions between citizen and consumer communication and surveillance participation and control which define contemporary struggles over public space
