Routledge Handbook of Mobile Technology, Social Media and the Outdoors Simon Kennedy Beames, Patrick T. Maher, 2024-08-29. This is the first book to explore the numerous ways in which mobile technologies and social media are influencing our outdoor experiences. Across the fields of outdoor education, outdoor recreation and leisure, and nature based tourism, the book considers how practices within each of those domains are being influenced by dramatically shifting interactions between technology, humans, the natural world, and wider society. Drawing on cutting edge research by leading scholars from around the world and exploring key concepts and theory as well as developments in professional practice, the book explains how digital technology and media are no longer separate from typical human and social activity.
