Twenty Years of Education Transformation in Gauteng 1994 to 2014

Maringe, Felix, Prew, Martin, 2015-05-05 Twenty Years of Education Transformation in Gauteng 1994 to 2014 An Independent Review presents a collection of 15 important essays on different aspects of education in Gauteng since the advent of democracy in 1994 These essays talk to what a provincial education department does and how and why it does these things whether it be about policy resourcing or implementing projects Each essay is written by one or more specialist in the relevant focus area The book is written to be accessible to the general reader as well as being informative and an essential resource for the specialist reader It sheds light on aspects of how a provincial department operates and why and with what consequences certain decisions have been made in education over the last 20 turbulent years both nationally and provincially There has been no attempt to fit the book's chapters into a particular ideological or educational paradigm and as a result the reader will find differing views on various aspects of the Gauteng Department of Education's present and past We leave the reader to decide to what extent the GDE has fulfilled its educational mandate over the last 20 years

Real World

Professional Learning Communities Daisy Arredondo Rucinski, 2016-12-08 In a professional learning community PLC teachers are organized into teams committed to meeting on a regular basis to study their teaching strategies and the effects of those strategies on the students in their classrooms The teacher teams can be of varied form and composition Whatever the organizational structure the teams have one goal that is to improve teaching so that student learning is improved Policy developers legislators and educational leaders have encouraged the adoption of collaborative professional learning teams as a school reform model for improving schools In this book we describe the results of studies of professional learning communities in real schools and the effects of the teams on student learning Much of the time school innovations are not examined in depth Instead authors and developers simply advocate that they be used In this book school principals and administrators describe how their teachers used the PLC teams to improve student learning in their schools In other words this book presents actual research on the effects of the use of PLCs rather than testimonials
