Finance & Development, June 2013 International Monetary Fund. External Relations Dept.,2013-05-30 This paper highlights that one of the most dramatic developments in the 20th century was the entry of women into economic and political spheres previously occupied almost exclusively by men Although women are making progress in eliminating gender disparities they still lag men in the workplace and in the halls of government These gaps are found throughout the world but are particularly pronounced in developing economies So far the greatest success has been in reducing education and health disparities and the least in increasing women s economic and political influence

achieve fulfilling careers to raise their children successfully and to age gracefully The Prime of Life puts today's challenges into new perspective by exploring how past generations navigated the passage to maturity Whereas adulthood once meant culturally prescribed roles and relationships the social and economic convulsions of the last sixty years have transformed it fundamentally tearing up these shared scripts and leaving adults to fashion meaning and coherence in an increasingly individualistic culture Emphasizing adulthood's joys and fulfillments as well as its frustrations and regrets Mintz shows how cultural and historical circumstances have consistently reshaped what it means to be a grown up in contemporary society A triumph of historical writing The Spectator Mintz's message that there are many ways to wear the mantle of responsible adulthood and that the 1950s model is a mere blip on history's radar is deeply necessary and long overdue New York Times Book Review Describing the cultural economic and social changes from the Colonial era to today's world Mintz argues that neither religious nor secular middle class values are adequate responses to the new generation's problems Choice A thoughtful and strangely encouraging tour of an often difficult life stage Kirkus Reviews
