Thomas Fischer,Heiko Gebauer,Elgar Fleisch,2012-05-24 Over the last decade capital goods manufacturers have added services to products as a way of responding to eroding margins and the loss of strategic differentiation Based on over twelve years of research this book provides a thorough overview of the strategies available for value creation through service business development *European Competition Law and Economics* Roger van den Bergh,Peter D. Camesasca,2001 The aim of this book is to explore the economic fundamentals of European competition law *Opportunity Recognition* Andreas Engelen,Clara von Gager,Monika Engelen,2023-03-23 The textbook contains a comprehensive presentation of tools that can be used to systematically generate innovative ideas for new business growth opportunities In practice it can be observed that companies make considerable efforts to identify ideas for innovations that can decisively shape their industry The reason for this is not least the knowledge that a missed wave of innovation can lead to major problems for the entire company A central finding of business management research is that ideas for generating future growth opportunities are often not a product of chance but the results of systematic analyses The authors provide a structured and comprehensive overview of the most important tools for identifying new growth opportunities They distinguish between company related market related and environment related approaches incorporate numerous practical examples and provide application oriented assistance with these tools The second edition of the book incorporates the latest research findings some examples have been updated and supplemented and the book has been expanded to include practical application tasks for teaching and practical workshops

European Competition Law Weijer VerLoren van Themaat,Berend Reude,2018-01-26 This updated second edition explains EU competition law by presenting the relevant legal provisions together with carefully selected case extracts pertaining to those provisions The book s unique structure enables users to quickly locate information on procedural and substantive aspects of competition law Containing an article by article overview of EU competition law jurisprudence and concise selected extracts from judgments in key cases this book serves as an easy to navigate resource for practitioners academics and competition authorities themselves
