**Cinéma-ciné pour tous**, 1928. L'euro Gérard Bekerman, Michèle Saint Marc, 2001-01-01. T00:00:00+01:00. Sans aucun doute, l'avènement de l'euro est le tournant le plus radical des finances internationales depuis l'adoption des changes flexibles au début des années 1970. L'Europe dispose maintenant d'une monnaie propre, douze traits, probablement davantage au cours des prochaines années. Cette récemment nouvelle est porteuse d'espoirs comme de risques. Le présent ouvrage s'attache à mettre en évidence les différentes phases de l'intégration monétaire européenne, les mécanismes de fonctionnement de la zone euro, leur impact sur le système bancaire, les agents économiques et ses effets sur les politiques macroéconomiques.

Gérard Bekerman, visiting professor at the University of California, South, is professor at Paris II, where he directs the master's program in Bank Finance. Michèle Saint Marc, director of research at CNRS, is a member of the Council of the Monetary Policy of the Bank of France.

**Annuaire Européen 2000/European Yearbook 2000** Francis Rosensteel, 2001-07-01. The year 2000's most significant international event was almost certainly neither political nor military, but scientific: the announcement in June that the human genome had been almost totally decoded. Future generations may well see this as a major turning point opening the way to radical changes in diagnosis, prognosis and medical treatment. Often compared with the space programme, this vast enterprise still generates misgivings: this new power which human beings now have to modify the genetic heritage of living creatures raises fundamentally new ethical questions and society as a whole will have to find the answers. In fact, the accelerating pace of scientific and technical progress seems to be reviving atavistic anxieties: some rational, others less so. Recent public health crises, including the mad cow disease scare which lasted into 2000, have fuelled these fears. The public's rejection of GMOs (Genetically Modified Organisms) verging on a crusade in some countries tells its own story. As regards conflict, 2000 saw the Middle East peace process grind to a halt and the Intifada
