exploitable and dangerous has been at the center of all desert focused enterprises Encompassing spiritual practices military thinking sexual fantasies experiential quests extractive economies and experimental schemes among other projects Saharanism has shaped the way deserts not only are constructed intellectually but are acted upon From nuclear testing to border walls and much more Brahim El Guabli articulates some of Saharanism s consequential manifestations across different deserts Desert Imaginations draws on the abundant historical literature and cultural output in multiple languages and across disciplines to delineate the parameters of Saharanism Against Saharanism s powerful and reductive vision of deserts the book rehabilitates a tradition of desert eco care that has been at work in desert Indigenous people s literary artistic scholarly and ritualistic practices      **Kennedy, de Gaulle and Western Europe** E. discusses how both irredentist ideologies and political realities have shaped the dynamics of state expansion and state contraction in the recent history of each state By studying Israel comparatively with other Middle Eastern regimes this book forms part of an emerging research agenda seeking to bring the research fields of Israel Studies and Middle East Studies closer together Instead of treating Israel's rule over the occupied territories as an isolated case Becke offers students the chance to understand Israel's settlement project within the broader framework of postcolonial state formation
