La fabrique des recruteurs Eliel Caleb Traoré, 2023-06-15 Le recrutement a de multiples dimensions depuis son pass jusqu'aux tendances les plus récentes En examinant en détail les principales évolutions qui ont marqué ce domaine et leur impact sur les pratiques actuelles l'auteur nous éclaire galement sur les termes couramment utilisés dans le recrutement afin de faciliter la compréhension des concepts abordés Cette approche analytique ne fait pas l'impasse sur une question cruciale l'éthique et la déontologie Comment pouvons nous respecter et honorer les valeurs et les droits fondamentaux des parties prenantes du recrutement Un regard complet et rigoureux pour un processus plus quitable et transparent La Fabrique de

la défiance Yann Algan, Pierre Cahuc, André Zilberberg, 2012-02-08 Hiérarchie ingalité et défiance telle est la véritable devise de la société française Hiérarchie exclusive litiste conflictuelle cette organisation de notre société mine les relations sociales mais aussi la confiance en l'avenir et la croissance Diffusé l'ensemble du corps social entreprises salariés partenaires sociaux Etat cette logique empêche pour l'instant la France de sortir de l'engrenage du déclin annoncé Depuis 10 ans ses effets pervers sont accentués par le manque de transparence du gouvernement de capacités gratuites du système scolaire et la mauvaise qualité des relations sociales Autant d'entraves l'économie française Pourtant le déclin n'est pas une fatalité les nombreuses formes menées l'étranger offrent des pistes pour sortir de l'ornière

La fabrique de l'hypermodernité Anaïs Djouad, 2025-01-15 Le régime numérique et sa biotechnologie caractéristiques de l'hypermodernité engendrent des conditions d'existence et de travail inédites Les systèmes relationnels interindividuels et de changes se transforment Les technologies apportent de nouvelles façons de communiquer de parler de croire d'organiser des tâches de les contrôler Elles sont explicites mais leurs particularités opèrent aussi de manière invisible souterraine Elles définissent pourtant des normes puissantes pour le travail Au-delà de l'objet numérique c'est au cœur du processus de l'informatisation de ces cinquante dernières années en France que se joue une transformation progressive du régime de travail De nos cultures sociales qui s'adaptent adoptent se conforment se métamorphosent résultent des conflictualités des polymologies ou des résistances parfois créatrices La fabrique de l'hypermodernité s'appuie sur une enquête menée au sein d'un service administratif de l'Inria alors en pleine crise sociale pour discerner les processus d'individuation psychiques et collectifs dans un contexte instable et de difficultés

communicationnelles spécifiques Immergé dans ces conditions anthropotechniques presque de rupture soumis des processus de subjectivations incontournables le sujet de la vie de bureau du manager au collaborateur se trouve dans une situation confuse il ne cesse de vivre une expérience complexe de lui-même dans le devenir hybride dynamique du régime numérique

Power, Legal Education, and Law School Cultures Meera Deo, Mindie Lazarus-Black, Elizabeth Mertz, 2019-10-10 There is a myth that lingers around legal education in many democracies That myth would have us believe that law students are admitted and then succeed based on raw merit and that law schools are neutral settings in which professors also selected and promoted based on merit use their expertise to train those students to become lawyers Based on original empirical research this book investigates this myth from myriad perspectives diverse settings and in different nations revealing that hierarchies of power and cultural norms shape and maintain inequities in legal education Embedded within law school cultures are assumptions that also stymie efforts at reform The book examines

hidden pedagogical messages showing how presumptions about theory's relation to practice are refracted through the obfuscating lens of curricula. The contributors also tackle questions of class and market as they affect law training. Finally, this collection examines how structural barriers replicate injustice even within institutions representing themselves as democratic and open, revealing common dynamics across cultural and institutional forms. The chapters speak to similar issues and to one another about the influence of context, images of law and lawyers, the political economy of legal education, and the agency of students and faculty.

Open Labs and Innovation Management Valérie Mérindol, David W. Versailles, 2022-11-25. This book examines returns on experience and managerial practices to generate deeper collaboration, intensify co-creation, support start-ups and established companies to explore, develop and accelerate their projects thanks to open labs, living labs, fab labs, coworking spaces, third spaces etc. Open labs are the beatbox to create a rhythm in ecosystems and make all stakeholders move forward faster together. This book proposes a framework to understand how open labs, innovation hubs and collaborative spaces contribute to ecosystems. The book looks beyond the short-term effects of open labs and identifies four main dimensions: communities, physical spaces, events and portfolios of services offered to private businesses, entrepreneurs and start-ups, established companies or public institutions. Drawing on extensive field research lasting over five years with more than 40 cases and more than 200 interviews plus direct observation within different environments, this edited book investigates how managers run these labs and how users or clients evolve when benefitting from their services. All chapters analyse how an actual management impacts the dynamics of communities, how it shapes the co-evolution between open labs and their ecosystems, and how the management of the physical space impacts the mission of the lab and its role in the ecosystem. **Open Labs and Innovation Research** is written for scholars and researchers in the fields of innovation studies and management science. This book can also inform teaching, public policymaking and professional practice.
