La France En Chine:

France/China Alex Hughes, 2018-12-13 China has long been an object of fascination for the French who celebrated their *Année de la Chine* in 2004. Symptomatic of that fascination are the movements into China made by groups as diverse as the Jesuits who arrived in the Empire du Milieu in the late seventeenth century and the *Tel Quel* intellectuals whose will to political pilgrimage took them to *Britain, France, West Germany and the People's Republic of China, 1969-1982* Martin Albers, 2016-12-01 This book focuses on helping readers to fill the gap of the little known history between Western Europe and its most important trading partner the People's Republic of China. Inspired by the economic and political significance of Sino-European relations this book shows how the China policies of the three biggest states of Western Europe Britain France and the Federal Republic of Germany helped China reintegrate into the international community in the 1970s. Against the background of the Cold War the end of Maoism and the emergence of globalization the governments in Bonn Paris and London had to find ways of dealing with Europe's declining influence and promote their own national interests in Asia. Based on newly declassified government files readers will find such sources invaluable in understanding the argument that despite pursuing very different policies the three governments supported a rapid expansion of peaceful exchange between the People's Republic and Europe and substantially contributed to the success of Beijing's reform policy. **The English in China**

James Bromley Eames, 1909 **Treaties Between the Empire of China and Foreign Powers, Together with Regulation for the Conduct of Foreign Trade, Conventions, Agreements, Regulations, Etc** China, 1906 **Missions Étrangères de Paris (MEP) and China from the Seventeenth Century to the Present** Ji Li, 2021-11-15 The first scholarly work on the subject by leading scholars in the field *Missions étrangères de Paris MEP and China* examines the variety of ways in which MEP missionaries complemented and complicated Catholic Church and French engagement with Chinese society. Key players in the Church's overseas missions in the Far East many MEP missionaries spent their entire lives working with ordinary Chinese. This volume explores the proactive engagement of MEP missionaries in Bible translation and cultural accommodation their evangelization efforts in local communities and the interaction between MEP representatives and various local groups. Each study in this book responds to one or more of the major themes in the history of Christianity in China that include conflicts accommodations indigenization imperialism and nationalism. This is an in-depth study of the intellectual technical and artistic encounters between Europe and China in the late eighteenth century focusing on the purposeful acquisition of information and images that characterized a direct engagement with the idea of China The central figure in this story is Henri-Léonard Bertin 1720-1792 who served as a minister of state under Louis XV and briefly Louis XVI Both his official position and personal passion for all things Chinese placed him at the center of intersecting networks of like-minded individuals who shared his ideal vision of China as a nation from which France had much to learn John Finlay examines a fascinating episode in the rich history of cross-cultural exchange between China and Europe in the early modern period and this book will be an important and timely contribution to a very current discussion about Sino-French cultural relations This book will be of interest to scholars in art history visual culture European and Chinese history

European Foreign and Security Policy towards China

Claude Zanardi, 2022-11-08 This book explores the foreign and security policies of Germany France and the UK vis-à-vis China Despite the progress made by the Lisbon Treaty and notwithstanding the first EU Global Strategy the European Union does not have a strategy to address the rise of China Since this strategic deficit does not automatically reflect the level of EU member states this book argues that the vacuum at EU level provides member states with an opportunity to fill this gap By assuming that an increase in national policies on

China would eventually lead to a comprehensive European strategy for China the author focuses on the three biggest European countries and looks at the rise of China to understand the development of the EU's Common Foreign and Security Policy vis vis the PRC While the CFSP depends on the contribution of EU member states their role in shaping the CFSP towards China has not been researched yet and this book fills the gap La France En Chine Au Dix-Huitieme Siecle - Scholar's Choice Edition Henri Cordier,2015-02-17 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant China Handbook ,1937 **Treaties, Conventions, Etc., Between China and Foreign States** China,China.
