Wallace, 2012-12-06 Medical scientists use the word iatrogenic to refer to disabilities that are the consequence of medical treatment We believe that some such word might be coined to refer to philosophical difficulties for which philosophers themselves are responsible Sir Peter Medawar Arguing that quantum theory as it stands is perhaps the most comprehensive well verified and successful theory in the history of science the author clears away the impression that it is an incomplete philosophically flawed and self contradictory theory In simple terms accessible to anyone with a little prior knowledge of science Wallace examines the numerous paradoxes and difficulties claimed for quantum mechanics and shows that they are due to excesses of interpretation that have been imposed on the theory **THE SPIRIT OF SPINOZA** Neal Grossman, 2014-05-02 BENEDICT SPINOZA was a 17th century philosopher and spiritual psychotherapist This intellectual self help book provides important insights from Spinoza's system of thought in a format accessible to the general reader as well as to those already familiar with his philosophy By applying his method to our personal lives we may free ourselves from bondage to our lower emotions and habitual behaviors and thus begin to enjoy the continuous supreme and unending happiness promised by Spinoza Those of us who came of age in the twentieth century were taught that we must adopt a crazy making strategy of compartmentalizing our lives putting our rational scientific side into one corner and our psychological spiritual side in another The precarious state of our world is evidence enough that this approach to life is a destructive dead end You are holding an effective alternative in your hand The Spirit of Spinoza is a brilliant treatise that has

been field tested by Professor Neal Grossman in his own life and that of his students over decades This book is a master stroke by a master teacher about a master philosopher It is also delightfully dangerous for it has the power to shift one's life onto a new axis where it becomes possible to blend knowledge and wisdom into an experience that can best be described quite simply as waking up Larry Dossey MD author of *One Mind How Our Individual Mind Is Part of a Greater Consciousness and Why It Matters* **Tales of the Turing Church: Hacking religion, enlightening science, awakening technology**
