**Reality outside the square with 'Adremolin' the last 'Wizard' of 'Oz'**

Adremolin,2024-06-17 Reality Outside the Square with Adremolin the Last Wizard of Oz explores the making of the universe in a new and relatively real way one that is different to the one that we have been using for at least the last two thousand years The dimensions used in theories to explain the universe with are modelled confusingly in two ways On the outside of matter we have modelled the dimensions with ten singular space dimensions and one singular time dimension On the inside of matter the same dimensions combine and are rolled up forming the space time reality that is now called the eleven dimensional multiverse Yet this way of understanding reality has led to the wrong conclusions and therefore we have been searching for way too long in the wrong direction and so missed out in a logical way to understand reality Now author Adremolin seeks to describe reality with two none dimensional inversely directed singulars One singular is called no matter and is like yin and the other singular is called dark matter and is similar to yang This way of describing reality solves all the confusing problems we have encountered here on earth in the description of reality for the last several millennia [This Wise Old Owl](#)
