light on the approaches and rationale of the entrepreneurial paths Chinese follow A striking feature of Chinese entrepreneurs is how they all seem to go with the flow of things So they are not afraid to face risks or to start all over again They do not panic when adversities arise for they know that success will always follow adversity For Chinese entrepreneurs the world is a place where anything is possible This makes them creative and able to persevere willing to try what for others may seem impossible or unrealistic They are brimming with a unique inner strength self motivation and self control Chinese entrepreneurs have a tremendous emotional intelligence and are experts at generating new ideas and strategies They regard their employees and the building of an internal corporate culture as the soul of their business For them a crisis is an opportunity to improve and learn to focus on working hard and being efficient today in order to succeed tomorrow Chinese entrepreneurs operate in the Chinese Paradigm a paradigm which overlaps very little with our Western paradigm But while the Chinese are very familiar with Western modes of business we Westerners are unaware of how they operate This book is aimed to shine some light on this
