Responses to the 'Arabellions' Tanja Börzel, Assem Dandashly, Thomas Risse, 2017-10-02 This book studies the reactions by external actors including the European Union to the events unfolding in the Arab world beginning in December 2010. In particular, contributors look at external actors' attempts to balance their desire for stability with their normative principles toward human rights and democracy. The book compares the action and inaction of the EU with other international and regional players including the United States, Russia, Turkey, and Israel, and assesses the response of these actors to the Arabellions events, analysing changes in their approaches to the Arab region. The contributions to this book answer three questions: 1. How have external actors assessed the Arabellions and what role did they see for themselves in this context? 2. Which goals and instruments did external actors pursue toward the MENA region? In particular, how did they deal with conflicting goals such as support for human rights and democracy on the one hand and concerns about security and stability on the other? 3. How can we explain the varying responses of external actors to the Arabellions? This book was published as a special issue of the Journal of European Integration.

The Evolution of Global Internet Governance Roxana Radu, Jean-Marie Chenou, Rolf H. Weber, 2014-03-25 The volume explores the consequences of recent events in global Internet policy and possible ways forward following the 2012 World Conference on International Telecommunications (WCIT 12). It offers expert views on transformations in governance, the future of multistakeholderism, and the salience of cybersecurity. Based on the varied backgrounds of the contributors, the book provides an interdisciplinary perspective drawing on international relations, international law, and communication studies. It addresses not only researchers interested in the evolution of new forms of transnational networked governance but also practitioners who wish to get a scholarly reflection on current regulatory developments. It notably provides firsthand accounts on the role of the WCIT 12 in the future of Internet governance.

The Fall of Heaven Andrew Scott Cooper, 2016-08-02 An immersive gripping account of the rise and fall of Iran's glamorous Pahlavi dynasty, written with the cooperation of the late Shah's widow Empress Farah, Iranian revolutionaries, and US officials from the Carter administration. In this remarkably human portrait of one of the twentieth century's most complicated personalities, Mohammad Reza Pahlavi, Andrew Scott Cooper traces the Shah's life from childhood through his ascension to the throne in 1941. He draws the turbulence of the post-war era during which the Shah survived assassination attempts and coup plots to build a modern, pro-Western state and launch Iran onto the world stage as one of the world's top five powers. Readers get the story of the Shah's political career alongside the story of his courtship and marriage to Farah Diba, who became a power in her own right, the beloved family they created, and an exclusive look at life inside the palace during the Iranian Revolution. Cooper's investigative account ultimately delivers the fall of the Pahlavi dynasty through the eyes of those who were there: leading Iranian revolutionaries, President Jimmy Carter, and White House officials, US Ambassador William Sullivan, and his staff in the American embassy in Tehran, American families caught up in the

drama even Empress Farah herself and the rest of the Iranian Imperial family Intimate and sweeping at once The Fall of Heaven recreates in stunning detail the dramatic and final days of one of the world s most legendary ruling families the unseating of which helped set the stage for the current state of the Middle East

Women Writing in a Time of War, 1642-1689 Karen Britland, 2025-05-26 Women Writing in a Time of War 1642 1689 explores the stereotype of the apolitical woman who was nevertheless valuable as a messenger or secret agent during the English civil wars not least because her imagined lack of political acumen obscured her partisan behaviour It examines the interconnections between early modern men and women s cultural production analyzing the secret writing and communication strategies employed by agents and spies during the wars and arguing that an attention to clandestine modes of writing provides new insights into women s literary production during the conflict Encouraging us to understand such literary production differently Britland offers a new history of early modern political writing one deeply imbricated in but by no means exclusively focused on the literary work and experiences of women the non elite and the racially marginalized in early modern England and its colonial trade networks An attentiveness to the narrative strategies deployed by women writers during the English civil wars also helps us to think about the long histories subtending our own reading and writing practices Not only does the relative invisibility of female agents in our own historiography reveal a persistent tendency in contemporary criticism to overlook women s contributions to major historical events but the book argues the early modern instrumentalization of women s bodies particularly the bodies of women from non elite backgrounds who acted as couriers within elite communication networks acts as a caution against adopting contemporary methods of reading particularly computer aided reading that can downplay or ignore the contributions of women and non elite people This book makes a case for not separating our discussions of women from those of men nor for privileging analyses of the rich over those of the poor at the same time as it remains deeply embedded in the literary material and merchant cultures of later seventeenth century England
