

## JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

# English Paper 2 September 2013 Memo

**Rémi Piet, Roger E. Kanet**

## English Paper 2 September 2013 Memo:

**Responses to the 'Arabellions'** Tanja Börzel, Assem Dandashly, Thomas Risse, 2017-10-02 This book studies the reactions by external actors including the European Union to the events unfolding in the Arab world beginning in December 2010. In particular, contributors look at external actors' attempts to balance their desire for stability with their normative principles toward human rights and democracy. The book compares the action and inaction of the EU with other international and regional players including the United States, Russia, Turkey, and Israel, and assesses the response of these actors to the Arabellions events, analysing changes in their approaches to the Arab region. The contributions to this book answer three questions: 1. How have external actors assessed the Arabellions and what role did they see for themselves in this context? 2. Which goals and instruments did external actors pursue toward the MENA region? In particular, how did they deal with conflicting goals such as support for human rights and democracy on the one hand and concerns about security and stability on the other? 3. How can we explain the varying responses of external actors to the Arabellions? This book was published as a special issue of the Journal of European Integration.

**Shifting Priorities in Russia's Foreign and Security Policy** Rémi Piet, Roger E. Kanet, 2016-03-09 Given the resurgence of Russian economic capabilities and of Russia's role as a regional even global political actor, much of the literature written more than 4-5 years ago is already dated. The editor and contributors to this timely volume draw upon a broad range of analysts who deal with various aspects of Russian relations with its neighbours to the West and to the East. Implications for Russian foreign and security policy are key to understanding Russia's position in the 21st Century. Readers in Russian foreign and security policy, European, Eurasian, and Asian security, and contemporary international politics will find this volume invaluable.

**E.P. Thompson and the Making of the New Left** E. P. P. Thompson, 2014-07-18 E. P. Thompson is a towering figure in the field of labor history, best known for his monumental and path-breaking work *The Making of the English Working Class*. But as this collection shows, Thompson was much more than a historian; he was a dedicated educator of workers, a brilliant polemicist, a skilled political theorist, and a tireless agitator for peace against nuclear weapons and for a rebirth of the socialist project. The essays in this book, many of which are either out of print or difficult to obtain, were written between 1955 and 1963 during one of the most fertile periods of Thompson's intellectual and political life, when he wrote his two great works, *The Making of the English Working Class* and *William Morris: Romantic to Revolutionary*. They reveal Thompson's insistence on the vitality of a humanistic and democratic socialism, along with the value of utopian thinking in radical politics. Throughout, Thompson struggles to open a space independent of official Communist Parties and reformist Social Democratic Parties, opposing them with a vision of socialism built from the bottom up. Editor Cal Winslow, who studied with Thompson, provides context for the essays in a detailed introduction and reminds us why this eloquent and inspiring voice remains so relevant to us today.

The Euro Trap Hans-Werner Sinn, 2014-07-31 This book offers a critical assessment of the history of the euro its crisis and the rescue measures taken by the European Central Bank and the community of states The euro induced huge capital flows from the northern to the southern countries of the Eurozone that triggered an inflationary credit bubble in the latter deprived them of their competitiveness and made them vulnerable to the financial crisis that spilled over from the US in 2007 and 2008 As private capital shied away from the southern countries the ECB helped out by providing credit from the local money printing presses The ECB became heavily exposed to investment risks in the process and subsequently had to be bailed out by intergovernmental rescue operations that provided replacement credit for the ECB credit which itself had replaced the dwindling private credit The interventions stretched the legal structures stipulated by the Maastricht Treaty which in the absence of a European federal state had granted the ECB a very limited mandate These interventions created a path dependency that effectively made parliaments vicarious agents of the ECB's Governing Council This book describes what the author considers to be a dangerous political process that undermines both the market economy and democracy without solving southern Europe's competitiveness problem It argues that the Eurozone has to rethink its rules of conduct by limiting the role of the ECB exiting the regime of soft budget constraints and writing off public and bank debt to help the crisis countries breathe again At the same time the Eurosystem should become more flexible by offering its members the option of

exiting and re entering the euro something between the dollar and the Bretton Woods system until it eventually turns into a federation with a strong political power centre and a uniform currency like the dollar
