This is the story of a science teacher and her work in an over crowded and under resourced township secondary school in contemporary South Africa While set firmly in the present it is also a journey into the past shedding fresh light on how the legacy of apartheid education continues to have a major influence on teaching and learning in South Africa The book has a compelling story line with extensively referenced notes at the end of each chapter It is intended for a wide audience which includes general readers policy makers teacher educators researchers and most importantly practitioners in the field For while it reminds us of the powerful constraining role that both context and students play in mediating a teacher s practice it also attests to the power of individual agency As such it is a celebration of the actions of an ordinary teacher whose willingness to leave the well worn paths of familiar practice stands as a beacon of possibility for contexts which seem so often to be devoid of hope      *Illinois Schools Journal* ,1921      *Proceedings* ,1910      *English Mechanic and World of Science* ,1898      **Sessional Papers** ,1918 Report of the Dominion fishery commission on the fisheries of the province of Ontario 1893 issued as vol 26 no 7 supplement      *Pulp and Paper Magazine of Canada* ,1927      *The English Catalogue of Books [annual]* ,1891 Vols 1898 include a directory of publishers      **Bibliography of Agriculture with Subject Index**
