## English Paper September Memo:

**Readin' + Writin' for the Hard-hat Crowd** Susan R. Merrifield, 2005 Readin Writin for the Hard Hat Crowd explores the history of an urban public university from its conception in 1964 to the dawn of the twenty first century The reader views this place in time through the lens of the evolving nature of freshman English an introductory curriculum that began as four semesters of Great Books The author herself among those once labeled the hard hat crowd received an undergraduate education similar to that experienced by her contemporaries at elite private colleges Yet while this school once considered a poor man s Harvard was founded with a mission to provide academic equity the curriculum evolved to one that responded to pressure for relevancy and practicality

**The English Atlantic, 1675-1740** Ian K. Steele, 1986-09-18 Exploding the curious myth that the ocean is a barrier rather than a highway for communication this unusual interdisciplinary study examines the English Atlantic context of early American life From the winterless Caribbean to the ice locked Hudson Bay maritime communications in fact usually met the legitimate expectations for frequency speed and safety while increased shipping new postal services and newspapers hastened the exchange of news These changes in avenues of communications reflected and in turn enhanced the political economic and social integration of the English Atlantic between 1675 and 1740 As Steele deftly describes the influence of physical technological socioeconomic and political aspects of seaborne communication on the community he suggests an exciting new mode of analyzing Colonial history

**A Grammar of the English Language** William Cobbett, 1824 *The American and English Encyclopedia of Law* James Cockcroft, David Shephard Garland, Lucius Polk McGehee, Charles Porterfield, 1897 *The English Militia in the Eighteenth Century* J. R. Western, 2023-11-06 First published in 1965 The English Militia in the Eighteenth Century directs light on English politics and government through studying the militia from the Restoration to the days of the younger Pitt The militia occupied a significant place both in the quarrels between king and parliament in the later seventeenth century and in the struggle for power between the elder Pitt and the Duke of Newcastle Raised and officered by the county and parish authorities its maintenance constantly posed the problem of how to harness the machinery of local government to national purposes The gentry had to be induced to help and the militia like other institutions national and local was shaped by the fashion and extent to which they responded The book will be of interest to students of history political science and literature

*Modern Sufis and the State* Katherine Pratt Ewing, Rosemary R. Corbett, 2020-08-25 Sufism is typically thought of as the mystical side of Islam. In recent years it has been held up as a supposedly peaceful alternative to the spread of forms of Islam associated with violence, an embodiment of democratic ideals of tolerance and pluralism. Are Sufis in fact as otherworldly and apolitical as this stereotype suggests? Modern Sufis and the State brings together a range of scholars including anthropologists, historians, and religious studies specialists to challenge common assumptions that are made about Sufism today. Focusing on India and Pakistan within a broader global context, this book provides locally grounded accounts of how Sufis in South Asia have engaged in politics from the colonial period to the present. Contributors foreground the effects and unintended consequences of efforts to link Sufism with the spread of democracy and consider what roles scholars and governments have played in the making of twenty-first century Sufism. They critique the belief that Salafism and Sufism are antithetical, offering nuanced analyses of the diversity, multivalence, and local embeddedness of Sufi political engagements and self-representations in Pakistan and India. Essays question the portrayal of Sufi shrines as sites of toleration, peace, and harmony, exploring cases of tension and conflict. A wide-ranging interdisciplinary collection, *Modern Sufis and the State* is a timely call to think critically about the role of public discourse in shaping perceptions of Sufism.

, 1905 Report of the Dominion fishery commission on the fisheries of the province of Ontario 1893 issued as vol 26 no 7 supplement Practicing Writing Thomas M. Masters, 2004-10-24 *Practicing Writing* examines a pivotal era in the history of the most ubiquitous and possibly most problematic course in North American colleges and universities: the required first-year writing course, generally known as freshman English. Thomas Masters's focus is the mid-twentieth century, beginning with the returning waves of World War II veterans attending college on the GI Bill. He then traces the education reforms that took place in the late 1950s after the launch of Sputnik and the establishment of composition as a separate discipline in 1963. This study draws upon archives at three midwestern schools that reflect a range of higher education options: Wheaton, a small sectarian liberal arts college; Northwestern, a large private university; and Illinois, a large public university. *Practicing Writing* gives voice to those whose work is often taken for granted or forgotten in other studies of the subject: freshman English students and their instructors. Masters examines students' papers, professors' letters, and course descriptions and draws upon interviews conducted with teachers to present the practitioners' points of view. Unlike other studies of the subject, which have tended to focus more on the philosophy, theory, and ideology of teaching composition and rhetoric, Masters reveals freshman English to be a practice-based phenomenon with a durable ideological apparatus. By reexamining texts that had previously

been considered insignificant he reveals the substance of first year composition courses and the reasons for their durability
