Validation of Score Meaning for the Next Generation of Assessments Kadriye Ercikan, James W. Pellegrino, 2017-03-27 Despite developments in research and practice on using examinee response process data in assessment design the use of such data in test validation is rare Validation of Score Meaning in the Next Generation of Assessments Using Response Processes highlights the importance of validity evidence based on response processes and provides guidance to measurement researchers and practitioners in creating and using such evidence as a regular part of the assessment validation process Response processes refer to approaches and behaviors

of examinees when they interpret assessment situations and formulate and generate solutions as revealed through verbalizations eye movements response times or computer clicks Such response process data can provide information about the extent to which items and tasks engage examinees in the intended ways With contributions from the top researchers in the field of assessment this volume includes chapters that focus on methodological issues and on applications across multiple contexts of assessment interpretation and use In Part I of this book contributors discuss the framing of validity as an evidence based argument for the interpretation of the meaning of test scores the specifics of different methods of response process data collection and analysis and the use of response process data relative to issues of validation as highlighted in the joint standards on testing In Part II chapter authors offer examples that illustrate the use of response process data in assessment validation These cases are provided specifically to address issues related to the analysis and interpretation of performance on assessments of complex cognition assessments designed to inform classroom learning and instruction and assessments intended for students with varying cultural and linguistic backgrounds The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Cracking the Code of Education Reform Christopher H. Tienken, 2019-08-07 Lead between the lines evaluate Ed policies to emphasize the positives and minimize the negatives Although educational reform is intended for positive change sometimes it misses the mark However when school leaders capitalize on the positive aspects of reforms they can strategize to ensure the best outcomes for students Christopher Tienken professor and international speaker shares his insights on how to identify both positive and negative aspects of education reform to maximize the benefits for students This book introduces a practical framework for interpreting educational reform within an evidence based practice and provides thoughtful ways to finesse results out of challenging policies Designed for use on the ground level this book features Seven specific creative compliance strategies to maximize student and educator success Case studies that illustrate how to critique reforms and take action Reflective questions to guide evaluation and application Ethical decision making checklist Analyzing both successful and unsuccessful reform ideas from the past this book champions creative compliance and how to lead innovatively judiciously
