

## SOLE-SEARCHING

- 1 Sneakers are casual shoes also known as 'takkies'. Today, these shoes are a popular choice of footwear worn by all types of people throughout the world.
- 2 The first sneaker was introduced in the 1860s in the form of a specialised running shoe made of leather and spikes. By 1892 the United States Rubber Company modified the design to include a rubber sole. These shoes were mass-produced and nicknamed 'sneakers', because of their soft, noiseless rubber soles. 5
- 3 Today, the sneaker culture is worth billions of rands worldwide. The market continues to grow rapidly. A 2017 report released by Transparency Market Research expects the global footwear market to reach over 3 trillion rands in value by 2020. It is impossible to deny that what was once street culture has turned into a mass consumer movement. 10
- 4 The market is driven by people known as sneakerheads, who collect, trade or admire sneakers as a hobby. It is also promoted by hip-hop culture and ordinary people who love this type of footwear. The sneaker culture has risen from humble, functional beginnings to the fashion trend it is today. 15
- 5 Converse, a sneaker manufacturer, was the first company to get celebrities to endorse their products. They set a marketing standard in the world of athletic footwear by adding the name of celebrity basketball player, Chuck Taylor, to the ankle patch of their All Star sneakers. 20
- 6 What began as a subculture is now universal and the sneaker industry's growth can be plotted alongside the rise of a music culture from the 1950s, when famous musicians wore this type of footwear. It exploded with the commercialisation of hip-hop. A turning point was the release of rapper RUN-DMC's track, *My Adidas*. This signified the beginning of sneaker **endorsement**' deals for non-athletes and what rappers were started to become popular among the youth. 25
- 7 'From a young age it has always been about having the coolest sneaker but now it is also about the culture,' explained Thabo and Thabiso Modiselle, founders of culture and sneaker site, *YoMzansi*. 'We were influenced by streetwear, music and hip-hop movies, and started studying the culture and educating ourselves on major sneaker brands.' 30

The discussion is based not only on data garnered from Japanese EFL learners and Japanese overseas educators but also on official English language policies and commercial magazine discourses about English study for Japanese people. The book addresses seemingly incompatible themes that are either entrenched in or beyond Japan's EFL context such as Japan's decades-long poorly performing English education vs its equally long-lived status as an economic power, Japanese English learners' preference for native English speakers' norms in at-home Japanese EFL contexts vs their friendship with other Asian students in western study abroad contexts, Japanese female students' dream of using English to further their careers vs Japanese working women's English study for self-enrichment, Japanese society's obsession with globalization through English study vs the Japanese economy sustained by monolingual Japanese businessmen, Japanese business magazines' frequent cover issues on global business English study vs Japanese working women's magazines' less frequent and markedly feminized discourses about English study. *Introducing Researching English for Specific Purposes* Lindy Woodrow, 2022-06-30 *Introducing Researching English for Specific Purposes* is an accessible and practical guide to research in ESP.
