A Functional Discourse Grammar for English Evelien Keizer, 2015-01-29 This is the first textbook on Functional Discourse Grammar a recently developed theory of language structure which analyses utterances at four independent levels of grammatical representation pragmatic semantic morphosyntactic and phonological The book offers a very systematic and highly accessible introduction to the theory following the top down organization of the model it takes the reader step by step though the various levels of analysis from pragmatics down to phonology while at the same time providing a detailed account of the interaction between these different levels The many exercises categorized according to degree of difficulty ensure that students are challenged to use the theory in a creative manner and invite them to test and evaluate the theory by applying it to the new data in various linguistic contexts Evelien Keizer uses examples from a variety of sources to demonstrate how the theory of Functional Discourse Grammar can be used to analyse and explain the most important functional and formal features of present day English The book also contains examples from a wide variety of other typologically diverse languages making it attractive not only to students of English linguistics but to anyone interested in linguistic theory more generally

Curriculum, Schooling and Society in Hong Kong Paul Morris, Bob Adamson, 2010-11-01 Hong Kong is a fascinating place for the study of curriculum Its schooling system is influenced by the legacies of a Chinese tradition and British colonialism and was developed at a time when around the world that state was taking more responsibility for the education of young people and educational policies were increasingly influenced by the impact of globalization To this we can add the complexities of Hong Kong as a society one that has witnessed major political and economic changes over the past 150 years or so and particularly since the late 1970s The dynamics produce an intricate interplay of innovation and conservatism

globalization and localization liberalism and authoritarianism devolution and centralization and many other tensions This book provides a comprehensive introduction to curriculum as a field of study in a way which highlights its inherent dilemmas and complexities by illustrating the diverse ways in which a curriculum can be developed and analyzed It also presents a specific analysis of the Hong Kong school curriculum and highlights the ways in which the curriculum both reflects and changes in response to broader socio political shifts Publisher s website **The NLM Technical Bulletin** ,1997 *Palm of the Rainforest* Ikénnà Nn?l?,2020-08-28 I know who I am Kelvin seemed desperate to win his father s approval However Mr Eze not only seemed unwilling to bestow it but hell bent in making life unbearable for his acclaimed son Kelvin thought it would be best to find his true family rather than endure the torture of being the unwanted child He realised that his quest for recognition was unlikely to succeed so he set his eyes on freedom In the meantime Kelvin expected that a good academic performance would change his luck and put him right with Mr Eze or at least boost his confidence in his abilities With all his attention on his studies competing for the best grades against the leading brains in his class especially Christian an indomitable rival he would not let school romance get in the way fo his goal But slowly and steadily Chioma gained his trust and won him over He would have to make a decision between holding on to his moral principle or satisfying his human desire for friendship New Home New Identity Marginalised and decimated the Biafran people were forced to go to war and secede from Nigeria But decades after losing the war and embracing the Nigerian identity they are still not treated as equal citizens in their home country As a new wave of terrorism sweeps the northern parts of the country the Biafran people predominantly Igbo are again decimated as they have been for decades in every crises and this led to renewed discussions about their independence For Biafra the fight for equality was over and their Sovereignty was not negotiable For Kelvin it wasn t very different and so his quest for truth and independence must begin His compulsory holiday in Igbo land would expose him to the truth that might have indirectly caused him to abandon his academic pursuit Perhaps it was just an excuse to free himself from the clutch of Mr Eze and begin his quest for the truth about his identity **The Doctorate as Experience in Europe and Beyond** Michael Byram,Maria Stoicheva,2019-11-20 The Doctorate as Experience in Europe and Beyond presents a detailed and fascinating account of completing a doctorate from the perspectives of researchers supervisors and students It provides an in depth insight through qualitative data interpretative methods and insider experiences for a truly unique perspective Given the popularity of doctoral studies and their increasing importance outside of academia the PhD has needed to evolve and develop particularly given its role in the internationalization of universities Drawing on in depth interviews with international participants this book explores case studies and comparative analysis of the dimensions of researcher identity the processes of supervision and the use of languages for teaching and learning and conducting research Providing a keen insight into how the internationalization of higher education is affecting the doctoral experience The Doctorate as Experience in Europe and Beyond is ideal reading for all academics doctoral supervisors and examiners as well as postgraduate students
