

# The Tempest – William Shakespeare

## A Level Exam Questions

1. "Although the island is apparently far removed from the world of Milan, there is no escaping the influence of the past." Discuss this view of *The Tempest*.
2. How far would you agree that "in *The Tempest*, magic is presented as a distraction from the main concerns of the play"?
3. "The storm in *The Tempest* both destroys and renews." Using your knowledge of the play as a whole, show how far you agree with this view of *The Tempest*.

The storm in Act I, scene I (which candidates have just been invited to write about in the context part of this question) is the only literal tempest in the play, though creative shipwreck in elsewhere Shakespeare is not unusual (*Twelfth Night*, *The Winter's Tale*, *Pericles*). The fact that the storm has been conjured by a human being (Prospero) suggests the god-like control this character exerts over the play's action. Destructive aspects of the storm tend to be registered in the play's first half: Alonso and Ferdinand, father and son, are portrayed (in different scenes) in a kind of desperate mutual lament; Stephano and Trinculo seem to be set free to indulge baser appetites without restriction. The shipwreck immediately facilitates two conspiracies: an upper plot aiming at the crown; a satyr play aiming at murder. As the play winds on, softer products of the storm appear: Miranda welcoming the world of men and plucking her prince from the sea, Alonso re-born in repentance, Sebastian, Antonio and the 'odd lads' of Caliban's conspiracy are less obviously regenerated, however, so some candidates will think that Prospero's renewing storm is only partly effective, only working on those susceptible to it. For his own part Prospero decides at the end of the play never to raise a vindictive storm again, to be humbly human rather than to bend the elements to his will. Candidates might choose to comment on the fact that – at the end of the play – there is a sense of a metaphorical passing of the storm of events and brighter conditions seem to be appearing on the horizon. Different interpretations and performances approaches (and there are many available) could be considered by candidates as they explore the ways in which others have considered the idea of storms and tempests as they relate to this play. This indicative content is intended to indicate aspects of questions that may feature in candidates' answers. It is not prescriptive, nor is it exclusive; examiners must be careful to reward original but well-focused answers and implicit as well as explicit responses to questions.
