**Republican, First, Last, and Always** Suzanne Bowers, 2010-02-19 Republican First Last and Always A Biography of B Carroll Reece examines the political culture that created an intense fervor of anti communism in America From 1920 to 1961 B Carroll Reece served a then unprecedented thirty five years in the United States House of Representatives A close friend of Robert Taft Reece served as Chairman of the Republican National Committee from 1946 1948 and used his position as chairman to push anti communism to the forefront of the Republican Party s national agenda and to help Taft try to win the presidency His background in finance and economics led him to believe that capitalism remained America s strongest defense against communism He worked to eradicate any threat to the capitalist system from trying to block government development of the Muscle Shoals Dam projects in Alabama in the 1920s to forming a congressional committee that attacked foundations created by the Ford Rockefeller and Carnegie families in the 1950s Reece s downfall and death represented the demise of Old Guard conservatives within the Republican Party as new leaders and new issues became the center of Republican politics and his investigation contributed to the animosity towards foundations and large concentrations of wealth that continues today

Clout City Dominic A. Pacyga,2025-09-09 Unearths the religious and cultural roots of a powerful political

machine that empowered some everyday Chicagoans but ruled all of the city for decades In politics clout is essential Too often it determines whether insider access is granted or denied favors are given or withheld and payoffs are made or received But Chicago clout as we know it today is even more potent than that it s the absolute currency of a social cultural and political order that is self reinforcing and self dealing Or at least it was In Clout City award winning historian Dominic A Pacyga reveals how cultural ethnic and religious forces created this distinctive system and ultimately led to its collapse Tracing clout s origins in the Irish Catholic dominated working class neighborhood of Bridgeport shaped by De La Salle Institute and home to the legendary Daley family Pacyga shows how communal ties can be a force for good and also the deepest wellspring of corruption He maps Chicago s unique politics to its remarkable history from the Great Fire of 1871 through its rise and decline as an industrial center to its emergence as a global city in the early twenty first century With deep research and firsthand experience from a lifetime in the city Pacyga argues that Chicago s politics is understood best as a mixture of cultural and religious influences and more worldly pursuits exploring how both Jewish and Catholic communalism played central roles in the creation and sustenance of the Chicago machine Chicago s politics today aren t as defined by its distinctive brand of clout But they are shaped by clout s decline and the ghost of the machine Pacyga s tour of the city s multilayered past is an indispensable guide to its present and future **Congressional Record** United States.

**Transition in Power** Peter J. Huggill, 2018-08-15 Hegemonic transitions are never clear and they usually emerge from a period of multi polarity in the world system Two types of state tend to contend for power trading states and territorial states although most states are never pure and tend to contain within them multiple polities with different agendas This book describes the hegemonic transition between two major trading states Britain and America British decline began in the late Victorian era but the transition to American power was slow and other states also sought hegemony Transitions between trading states focus on economic struggle though struggles between trading and territorial states and between territorial states are marked by armed conflict In 1919 President Woodrow Wilson saw three arenas of competition developing between Britain and America in international transportation international communication and petroleum But Britain was challenged economically by America as early as 1861 via the Morrill Tariff her economic hegemony was gone by the 1880s and she was defeated by 1947 From the 1880s on both America and Germany sought to replace Britain as hegemonic power not only through their implementation of protectionist economic policies but also through the adoption of revised versions of the world economy through new technologies and in the case of Germany military power Britain struggled to stay in place Britain s world economy was that of a pure trading state Maritime trade in organic materials was organized through global capitalism and control over submarine

cable telecommunications rather than territorial possession America's rise was greatly helped by being a capitalist power in possession of a secure territorial base in the mid section of the North American continent but America suffered from multiple polities competing for power with the South particularly problematic Germany developed a radically new world economy that synthesized resources using organic chemistry German science and technology began to diffuse to American corporate laboratories before World War One After that war diffusion to American laboratories and universities was massive and helped secure American hegemony "Twice the Thrills!
