Five Years Of An Enlarged Eu A Positive Sum Game:

Five Years of an Enlarged EU Filip Keereman, Istvan Szekely, 2010-07-23 The Fifth Enlargement that took place in 2004 and 2007 was a milestone in the history of the European Union Not only because of the large number of acceding countries but also because of their recent political and economic experience Ten of them had undergone a profound transition from a totalitarian regime to democracy and from a centrally planned economy to a market based system Most of them had income levels significantly below those of the then EU 15 Now 6 years later we can clearly see that the process of European integration both before and after 2004 was what enabled Europe to overcome the gaps between various parts of the continent The enlargement made Europe a better and wealthier place and strengthened its position in the world Integration into the European Union has always been one of the strongest incentives for reform in the new Member States Particularly important in my view have been the development of financial markets through foreign direct investment and capital flows and the opening of labour markets which was a two way phenomenon with markets being opened up in acceding as well as the incumbent Member States The Fifth Enlargement was thus an exercise of globalisation in miniature a practice run for the Union to tackle the challenges of the ever smaller world Five Years of an Enlarged EU Filip Keereman, István

Székely, 2010 This book analyzes the economic performance of the EU in the first five years after its largest expansion in 2004 Accession and integration were expected to foster growth and convergence among the new Member States through intensified trade foreign direct investment financial deepening and the adoption of EU's institutional framework With the benefit of five years experience this book brings together experts from academia and think tanks to assess the driving forces of economic growth and real convergence The question whether the EU has made a difference in terms of growth is studied thoroughly from various angles including that of country specific and sector specific analysis It is shown that while the enlargement has been a success story overall growth and catching up cannot be taken for granted and the importance of economic policy remains undiminished Page 4 of cover

The History of Migration in Europe Francesca Fauri, 2014-10-03 The History of Migration in Europe belies several myths by arguing for example that immobility has not been the normal condition of people before the modern era Migration far from being an income maximizing choice taken by lone individuals is often a household strategy and local wages benefit from migration This book shows how successes arise when governments liberalize and accompany the international movements of people with appropriate legislation while failures take place when the legislation enacted is insufficient belated or ill shaped Part I of this book addresses mainly methodological issues Past and present migration is basically defined as a cross cultural movement cultural boundaries need prolonged residence and active integrationist policies to allow cross fertilization of cultures among migrants and non migrants Part II collects chapters that examine the role of public bodies with reference to migratory movements depicting a series of successes and failures in the migration policies through examples drawn from the European Union or single countries Part III deals with challenges

immigrants face once they have settled in their new countries Do immigrants seek integration in their host culture Through which channels is such integration achieved and what roles are played by citizenship and political participation What is the identity of migrants and their children born in the host countries This text s originality stems from the fact that it explains the complex nature of migratory movements by incorporating a variety of perspectives and using a multi disciplinary approach including economic political and sociological contributions

The EU Anti-Corruption Report Andi Hoxhaj, 2019-10-16

This book analyses the development of anti corruption as a policy field in the European Union with a particular focus on the EU Anti Corruption Report It reconstructs the origins of anti corruption policy in the 1990s when the EU started to recognise corruption as a serious crime with a cross border dimension It also analyses the processes surrounding the downfall of the Santer Commission on charges of corruption in 1999 and the enlargement of the EU This incorporation of transitional new Member States was accompanied by a number of specific measures instruments and monitoring mechanisms to combat corruption at the supranational level finally leading to the introduction of the EU wide Anti Corruption Report in 2014 The book presents an in depth analysis of its implementation abandonment and the way forward under the European Semester as the new instrument for achieving EU anti corruption reforms It offers a new interpretation of the Report as a form of reflexive governance that operates at multiple levels and involves not only the European institutions and national governments but also the role of civil society actors in the process of developing anti corruption policy It applies the theory of reflexive governance in analysing the impact of the Report in the UK Romania and Albania including the involvement of non state actors in anti corruption policy making in these countries The book concludes with a discussion on how future EU Anti Corruption policy can make use of reflexive governance and offers recommendations to enhance anti corruption policies of the EU the Member States and Candidate States

Central and East European Politics Sharon L. Wolchik, Jane Leftwich Curry, 2014-12-24

Now in a fully updated edition this essential text explores the post communist half of Europe and the problems and potential it brings to the world stage Clear and comprehensive the book offers an authoritative and current analysis of the region s transformations and realities from pre communist history to the victories and reversals in Central and Eastern Europe the Baltics and Ukraine including the Euromaidan and its domestic and international ramifications Divided into two parts the book presents a set of comparative country case studies as well as thematic chapters on key issues including EU and NATO expansion the economic transition and its social ramifications the role of women persistent problems of ethnicity and nationalism legacies of the past and political reform Leading scholars provide the crucial historical context necessary to evaluate the challenges facing the region They explain how communism ended and how democratic politics has developed or is struggling to emerge in its wake how individual countries have transformed their economies how their populations have been affected by rapid and wrenching change and how foreign policy making has evolved They explore the reversals and conflicts that have emerged even in the most successful transitions and their relevance to our understanding of

political transitions and democratic consolidation in general For students and specialists alike this book will be an invaluable resource on the politics and economics of Central and Eastern Europe caught between the EU and a resurgent Russia

Life in Post-communist Eastern Europe After EU Membership Donnacha Ó Beacháin,Vera Sheridan,Sabina Stan,2012 This book examines how membership of the European Union has affected life in the ten former communist countries of Central and Eastern Europe that are now members of the European Union It attempts to answer some fundamental questions Was the reward of EU membership worth the sacrifices made How have the new member states fared Has the promise of EU membership on which so many expectations were based been realised Or have the new member states traded a Socialist Commonwealth with Moscow pulling the strings for an over centralised Brussels bureaucracy that lacks transparency and accountability How has a shared communist past influenced the countries post socialist and post accession trajectory How have the populations of post communist Europe fared Have some done better than others Are these divergences confined to the political economic or social spheres or to more than one If there have been disappointments how have the populations reacted to these By taking stock of debates within domestic elites popular opinion non governmental organisations civil society and external actors this book seeks to answer these crucial questions Economic Growth and Convergence Michał Bernardelli,Mariusz Próchniak,Bartosz Witkowski,2021-06-30 There are many different types of convergence within economics as well as several methods to analyse each of them This book addresses the concept of real economic convergence or the gradual levelling off of GDP gross domestic product per capita rates across economies In addition to a detailed holistic overview of the history and theory the authors include a description of two modern methods of assessing the occurrence and rate of convergence BMA based and HMM based as well as the results of the empirical analysis Readers will have access not only to the conventional econometric approach of convergence but also to an alternative one allowing for the convergence issue to be expressed in the context of automatic pattern recognition This approach is universal as it can be adapted to a variety of input data The lowest aggregation level study investigates regional convergence through the case of Polish voivodships where convergence towards the leader is tested On a higher level of aggregation the authors examine the existence of GDP convergence in such groups as the EU28 North Africa and the Middle East sub Saharan Africa South America Caribbean South East Asia Australia and Oceania or post socialist countries For each group the real convergence is tested using the two above mentioned approaches The results are widely discussed broadly illustrated interpreted and compared The analysis allows readers to draw interesting conclusions about the causes of convergence or the drivers behind divergence The book will stimulate further research in the field but the research was conducted from the point of view of individual countries **Migration and Social Remittances in a Global Europe** Magdalena Nowicka,Vojin Šerbedžija,2017-02-01 This book explores migrant s global social remittances and their impacts on Europe Exploring the topic from a range of disciplines including sociology anthropology geography and political science the authors present

empirical analyses covering a wide selection of international contexts across Europe India Iraq Bolivia Congo Lebanon and Thailand The book presents migrants not as Europe s cultural others but as an integral part of Europe s global connection and scrutinises the flows of knowledge ideas money objects and values which result from the process of migration rather than the migrants themselves A valuable contribution to the literature on migrant transnationalism and globalisation this book will appeal to scholars across the social sciences **Five Years of an Enlarged EU** European Commission.

Directorate-General for Economic and Financial Affairs,2009 Recoge 1 introduction 2 Five years in the EU achievements and experiences 3 Goods and services in an enlarged EU 4 Capital markets in an enlarged EU 5 The free movement of labour in an enlarged EU 6 Integrating in the EU or in the world 7 Enlargement and the EU policy framework *Central and East European Politics* Zsuzsa Csergo,Daina S. Eglitis,Paula M. Pickering,2021-06-22 Now in a fully revised and updated edition this essential text provides a comprehensive introduction to Central and Eastern Europe including the Baltics and Ukraine Broad but nuanced it offers a reader friendly overview of the globally and regionally significant changes and challenges the region faces Divided into two parts the book first presents thematic chapters on key issues including nationalism and challenges to democratic institutions and practices the contentious politics of memory debates over demography and migration in a region with a shrinking population and Russian efforts to retain regional influence through hard and soft power The case study chapters that follow highlight key political developments after communism as well as providing a strong foundation for readers on regional history and the political and economic experiences of the communist years Each covers the foundational topics of political history political competition economic development social problems relationships with European institutions and threats to good governance For students and specialists alike this book will be an invaluable resource on this dynamic region of Europe *Foundations of Migration Economics* George J. Borjas,Barry R. Chiswick,2019 The book presents research papers published over the past four decades by leading economists George J Borjas and Barry R Chiswick on the economics of international migration *Emerging Capitalism in Central Europe and Southeast Asia* F. Bafoil,2015-12-24 This book examines the emergence of different forms of capitalism in Central Eastern states in Europe and Mekong states within the Association of Southeast Asian Nations ASEAN All of them but Thailand have historically disappeared from the regional maps for long periods of time due to colonial or imperial rule Most of them were previously members of a soviet type economy and they all joined ASEAN or the European Union in the 1990s or in the 2000s These states are characterized by a strong urge toward feelings of national sovereignty due to their experiences with colonialism and imperialism But due to the regional economic pressures and the globalization dynamic these states cannot articulate protectionist policies They are forced to open their economies in order to attract Foreign Direct Investments This results in less regulated and more political forms of capitalism than in some more developed capitalist countries This book analyzes forms of capitalism as the arising from a combination of three conditions the legacy of the foreign occupations the national

construction process of the sovereign state and lastly the dynamics of regional integration These states claims to national sovereignty and the manner in which they developed suggests a causative link between the forms of political domination that have presided over these transformations and the forms of capitalism that have resulted *The EU's Government of Industries* Bernard Jullien, Andy Smith, 2014-08-13 To what extent is business activity governed at a European scale Since the advent of the recent economic crisis the EU s choices about the euro debt ratios and interest rates have caught the headlines and highlighted the importance of EU decision making arenas However these macro economic events actually tell us only part of the story about the extent to which business activity is now governed at a European scale Based upon original research on four manufactured or processed goods industries cars wine pharmaceuticals and aquaculture and driven by theory that is constructivist institutionalist and sociological this book sets out to analyse just what Europe governs by whom and why In doing so it reveals three recurrent features of the European government of industries its omnipresence its incompleteness and its de politicization The authors show that the many gaps in the EU s mode of governing industries stem from struggles over economic doctrine as well as the continued unwillingness of many actors to accord the EU a legitimacy to act politically in the name of industrial government This book will be of key interest to scholars and students of European Studies and Political Economy as well as those studying Political Science Economics Sociology and Business Studies

Youth Labor in Transition Jacqueline O'Reilly, Janine Leschke, Renate Ortlieb, Martin Seeleib-Kaiser, Paola Villa, 2018-11-07 Exacerbated by the Great Recession youth transitions to employment and adulthood have become increasingly protracted precarious and differentiated by gender ethnicity and socioeconomic status Youth Labor in Transition examines young people s integration into employment alongside the decisions and consequences of migrating to find work and later returning home The authors identify key policy challenges for the future related to NEETS overeducation self employment and ethnic differences in outcomes This illustrates the need to encompass a wider understanding of youth employment and job insecurity by including an analysis of economic production and how it relates to social reproduction of labor if policy intervention is to be effective The mapping and extensive analysis in this book are the result of a 3 year European Union funded research project Strategic Transitions for Youth Labour in Europe or STYLE <http://www.style-research.eu> coordinated by Jacqueline O'Reilly With an overall budget of just under 5 million euros and involving 25 research partners an international advisory network and local advisory boards of employers unions and policymakers and non governmental organizations from more than 20 European countries STYLE is one of the largest European Commission funded research projects to exist on this topic Consequently this book will appeal to an array of audiences including academic and policy researchers in sociology political science economics management studies and more particular labor market and social policy policy communities and bachelor s and master s level students in courses on European studies or any of the aforementioned subject areas *Does EU Membership Facilitate Convergence? The Experience of the EU's Eastern Enlargement - Volume I*

Michael Landesmann, István P. Székely, 2021-02-11 This edited volume analyses how EU membership influenced the convergence process of member countries in the Baltics Central Eastern and South Eastern Europe It also explores countries that are candidates for future EU membership The speed of convergence of significant groups of low and medium income countries has never been as fast globally as it is today Contributions by lead researchers of the area explore whether these countries are converging faster than their fundamentals and global trends would suggest because of EU membership with its much tighter institutional and political anchorage

Transnational Law of Human Mobility Emília Lana de Freitas Castro, 2020-07-31 This book employs methods from comparative law to analyze voluntary migration exploring the free movement of immigrants and their freedom of settlement under Brazilian and Mercosul law as well as under German law and the European Union's legal framework on migration It discusses the level of protection granted to immigrants in terms of their right to enter and stay in Brazil and Mercosul using German legislation and the EU's legal framework on migration for comparison Accordingly the book will help migration researchers to understand not only the structure and rationale of migration law in Brazil especially after the entry into force of its recent Migration Law in 2017 but also its relation to EU and German provisions on voluntary migration It demonstrates how the differing natures of the migration law adopted by Brazil and Germany have led to different approaches and consequently different levels of protection for immigrants

The European Integration Crisis Marek Loužek, Luboš Smrčka, 2020-12-21 European integration is not a priori positive or negative it results from the interaction between various interests During the past few years however it has been impossible to ignore increasingly strident claims that the European Union is in the midst of a crisis According to this perspective European institutions do not function well democracy in the Union is flawed eurozone problems have reached a critical point and inward migration which European institutions seem incapable of handling is escalating This book demonstrates that public choice theory can be a suitable analytical tool to examine the European integration process It is based on the assumption that consumers politicians and even nations are similarly concerned with their own interests economic political and so on Public choice theory enables us to de-idealize the European integration process and see the interests of individual actors in the process more realistically European integration does not occur because the actors are altruistic rather it comes about due to their rational pursuit of individual or group self interests European integration and other forms of globalization are not irreversible For every action there is an equal and opposite reaction It remains a possibility that after several decades of European integration we are now entering an era of disintegration This book will serve as a source of edification for academics politicians students and experts as well as the general public It is designed to capture the interest of both graduate and postgraduate students of economics political science and international relations

Migration in the Western Balkans Russell King, Nermin Oruc, 2020-05-21 Migration in the Western Balkans rectifies the under investigation by migration scholars of the Western Balkans region by bringing together recent research at a time when migration is a hot

topic for the future of Europe The book explores issues such as the complex geopolitics of the region the relationship between migration and development diasporas and refugees and humanitarianism Expert contributors present new research on economic migration forced migration diaspora formation and return migration at a time when migration is of crucial relevance for the future of Europe The chapters shed new light on the multiple migration dynamics of a region which has had a troubled past yet stands on the threshold of EU membership As a theatre of multiple migration processes Migration in the Western Balkans reveals new information on the region and will be of great interest to scholars of migration the Balkans and geopolitics The chapters were originally published as a special issue of the Journal of Balkan and Near Eastern Studies

Proceedings of IAC-MEM 2015 in Vienna group of authors,2015-11-09 Proceedings International Academic Conference on Management Economics and Marketing in Vienna 2015 International Politics Egbert Jahn,2015-11-03 This volume analyses the historical background of violent international conflicts Starting with an analysis of the conflict and cooperation structures in post communist Eastern Europe and the eastern expansion of the European Union the author discusses the problem of acts of intervention in response to severe human rights violations taking Kosovo Libya and in a further text also Darfur as examples To analyse the subject of ethnonational autonomy and independence movements the author presents case studies on Bosnia Herzegovina Belgium Cyprus on the Kurdish areas of Iraq Iran Syria and Turkey on Israel Palestine on China with regard to Tibet and Xinjiang and on the genocide of the Armenians in the Ottoman Empire The classic subjects of inter state security and armament policy include the controversy over the nuclear policies of Iran and North Korea while the analysis of the changes in Russia s political system focuses on their far reaching consequences for international politics This book will appeal to students and scholars of international relations and peace and conflict studies as well as to practitioners and decision makers in the field of peace politics
