Reva Seth talked to over 500 mothers from a broad range of professional and personal backgrounds who have defied cultural expectations and achieved greater professional success after starting their families. For these women and others like them, having children actually enhanced their work life by helping them prioritize and set bigger goals, inspiring them to work harder and smarter, or even spurring them to start their own businesses. As Rebecca Woolf of *Girl's Gone Child* blog fame puts it: Motivation: thy name is parenthood. But as Sheryl Sandberg, the COO of Facebook, has pointed out, when an already busy woman starts thinking about having a child, she frequently steps back from her career goals, unable to picture how her already busy life will accommodate children. Enter *The MomShift*, which covers areas such as how much we really need to lean in, whether there's a best time to have a baby, the benefits of re-framing maternity leave, ambition, financial concerns, the changing nature of careers, and whether work-life balance really exists for working mothers. Each chapter has discussion questions to keep the conversation going and the ideas percolating. The result is a reassuring, supportive, and inspirational resource that emphasizes there is no one right way to balance careers and family, and that illustrates the many choices women have today. *The MomShift* is an invaluable career companion brimming with motivation, tips, and ideas to help each woman create her own version of career success during the often hectic but highly productive mom years.
