**Translation** Peter France, 2000 Translation has been a crucial process in world culture over the past two millennia and more In the English speaking cultures many of the most important texts are translations from Homer to Beckett the Bible to Freud Although recent years have seen a boom in translation studies there has been no comprehensive yet convenient guide to this essential element of literature in English Written by eminent scholars from many countries the Oxford Guide to Literature in English Translation meets this need and will be essential reading for all students of English and comparative literature It highlights the place of translation in our culture encouraging awareness of the issues raised making the translator more visible Concentrating on major writers and works it covers translations out of many languages from Greek to Korean from Swahili to Russian For some works e.g. Virgil's Aeneid which have been much translated the discussion is historical and critical showing how translation has evolved over the centuries and bringing out the differences between versions Elsewhere with less familiar literatures the Guide examines the extent to which translation has done justice to the range of work available The Guide is divided into two parts Part I contains substantial essays on theoretical questions a pioneering outline of the history of translation into English and discussions of the problems raised by specific types of text e.g. poetry oral literature The second much longer part consists of entries grouped by language of origin some are devoted to individual texts e.g. the Thousand and One Nights or writers e.g. Ibsen Proust but the majority offer a critical overview of a genre e.g. Chinese poetry Spanish Golden Age drama or of a national literature e.g. Hungarian Scottish Gaelic There is a selective bibliography for each entry and an index of authors and translators

Oberhelman, 2025-07-21 This three volume set of essays is dedicated to Alain Touwaide known for his far reaching investigations in fields such as ancient medicine botany pharmacy texts and manuscripts the classical tradition translation the history of science ethnopharmacology and plant therapies The essays penned by 80 international scholars and researchers and written in six languages are grouped into three broad categories Manuscripts Plants and Remedies to reflect Alain's main areas of research Each category is broken into subgroups such as manuscripts texts and science botany gardens materia medica pharmacy drugs archaeology medical traditions and continuity of scientific knowledge in the East and West The papers reach across many fields of scholarship science and medicine and are necessarily and fundamentally trans disciplinary trans chronological and trans geographic These volumes are not so much a Festschrift as an approach to Alain's work through many disciplines and methods a discussion of the current status of each field and an opening into new perspectives    **Cherokee Power** Kristofer Ray, 2023-09-26 In 1754 South Carolina governor James Glen observed that the Tennessee River has its rise in the Cherokee Nation and runs a great way through it While noting the prodigious extent of the corridor connecting the Tennessee Ohio and Wabash River valleys and the Cherokees' undoubted ownership of this watershed Glen and other European observers were much less clear about the ambitions and claims of European empires and other Indigenous polities regarding the North American interior In Cherokee Power Kristofer Ray brings long overdue clarity to this question by highlighting the role of the Overhill Cherokees in shaping imperial and Indigenous geopolitics in seventeenth and eighteenth century America As Great Britain and France eyed the Illinois country and the Tennessee Ohio and Wabash River valleys for their respective empires the Overhill Cherokees were coalescing and maintaining a conspicuous presence throughout the territory Contrary to the traditional narrative of westward expansion the Europeans were not the drivers behind the ensuing contest over the Tennessee corridor The Overhills traded negotiated and fought with other Indigenous peoples along this corridor in the process setting parameters for European expansion Through the eighteenth century the

British and French struggled to overcome a dissonance between their visions of empire and the reality of Overhill mobility and sovereignty a struggle that came to play a crucial role in the Anglo American revolutionary debate that dominated the 1760s and 1770s By emphasizing Indigenous agency in this rapidly changing world Cherokee Power challenges long standing ideas about the power and reach of European empires in eighteenth century North America

The Reception of Oscar Wilde in Europe Stefano Evangelista,2010-05-06 Oscar Wilde 1854 1900 is now widely recognised not only as one of the most representative figures of the British fin de si cle but as one of the most influential Anglophone authors of the nineteenth century In Britain Wilde suffered a long period of comparative neglect following the scandal of his conviction for gross indecency in 1895 and it is only recently that his works have been reassessed But while Wilde was subjected to silence in Britain he became a European phenomenon His famous dandyism his witticisms paradoxes and provocations became the object of imitation and parody his controversial aesthetic doctrines were a strong influence not only on decadent writers but also on the development of symbolist and modernist cultures This collection of essays by leading international scholars and translators traces the cultural impact of Oscar Wilde s work across Europe from the earliest translations and performances of his works in the 1890s to the present day    *Translation, Travel, Migration* Loredana Polezzi,2016-04-08 The connection between travel and translation is often evoked in contemporary critical theory both practices seen as metaphors of mobility and flux linked to globalized post modern society Travel is a multiple activity encompassing temporary and voluntary displacement repeated movement exile economic migration diaspora Places of origin are often plural and unstable in spite of the enduring appeal of traditional labels such as mother country or patrie The multiple interfaces between translation travel and migration are the focus of all contributions in this special issue Starting from different points of view and using a variety of methodologies the authors raise fundamental questions about the way in which we perceive the link between language national or ethnic identity and individual voice Topics range from the

interaction between travel travel narratives and translation in early English representations of China to the special role played by interpreters in mediating the first contact between a literate and a non literate culture from the multiple functions and audiences addressed by contemporary Romani literature and its translation to the political as well a cultural implications of translating popular music across the Bosphorus A number of the articles focus on detailed textual analysis covering the intersection between exile self translation and translingualism in the work of Manuel Puig the uses and limitations of translation in the works of migrant authors or the impact on figurations of Europe of experimental work embracing polylingualism Collectively these contributions also underline the importance of a closer examination of our assumptions about who the translators and the interpreters are and what roles they play in our society
