Man As the Prayer Yup Lee, 2000 In this book a totally new picture of five million years of human evolutionary history is presented Male and female hominids lived separately in different areas for most of the last five million years They met together once a year and stayed together for a brief period What they did for and during this annual mating season is the key to the proper and correct understanding of human evolution Five million years ago the last common ancestors of the African great apes and humans lived in an extensive rain forest encompassing a river and a lake There was a system of mountains a lake and a river all of which were linked together Ever since then mountains rivers and lakes were intimately involved with humankind When the climate turned arid the riverside forest broke into fragments of small forests In desperate need of food the last common ancestors were forced to visit the trees which dotted the river shore They developed a unique mode of terrestrial locomotion to move between the main forest and the scattered patches of forest One day during drought a small group of apes ventured to a faraway tract of forest beside the river On the road they were caught in heavy rain and in the resulting frenzy they lost their way back home During their wanderings they evolved into gorillas Almost at the same time another small group of apes met the same fate and evolved into chimpanzees As the climate grew increasingly arid the year divided itself into dry and wet seasons During the dry season males were forced to remain in the nearby mountain ranges

because there weren't enough food in the home forest to support both males and females. As a result, males and females parted ways during the annual dry season. These were the ancestral hominids who evolved into australopithecines Two and a half million years ago as the climate became increasingly arid the forest surrounding the lake began to break up and disappear. Finally the female hominids the inhabitants of the forest at the margin of the lake were forced down to the ground. They became fully terrestrial but they did not know where to find food and water. Consequently females began to follow herds of Hipparion horses. Later they switched to one-toed horses. Following these migrating horses some hominids ended up in East Asia from Africa about 2 million years ago. In the same fashion some hominids later wound up in Europe. In the meantime male hominids developed and acquired unique behavior. As rain began to fall they went downstream to their courting ground. There they beat the ground with sticks to attract and seduce mates. They beat pebbles and the bones of dead animals or anything else on the ground leaving behind piles of fractured, dented and broken bones. These stone debris are erroneously called Oldowan tools by archaeologists and anthropologists. Rain was so important to our remote ancestors because the rain was a harbinger of the brief annual mating season. They prayed for the coming of rain as the climate became arid. They prayed earnestly by beating the ground with sticks in their place of courtship. In due course hominids became prayers. Later as rain began to fall irregularly the rain lost its foremost importance. Instead the horse ascended in importance. Now males prayed for the coming of the horse accompanied by their mates. About 32,000 years ago Upper Palaeolithic Europeans began to pray for the coming of the horse by carving, engraving and painting horses on the cave walls. Painting was simply another version of prayer. The same was true for language. Human language was developed out of verbal prayer. In this book the common thread running through the entire history of human evolution is crisply and clearly explicated. The origins of construction, music, sculpture, handicrafts, painting and languages are all clarified as variations of the same theme. That theme was prayer.

[A Marriage After God's Own Heart](#) David Clarke, 2009-10-14. Isn't sexual or emotional intimacy enough? No, says Christian psychologist Dr David Clarke. Spiritual bonding is the process by which a couple cultivates the presence of God in their relationship, he says, and it's the only glue that sustains relationships long term. Working with hundreds of couples, Clarke observes that when we take specific steps to keep God at the center of our relationships, every area of intimacy is energized. This book teaches men and women in a committed relationship how to pray together, create spiritual conversations, read and study Scripture together, hold private worship sessions and allow the Holy Spirit to guide them. It's extremely practical counsel all couples need today.

Marriage from the Heart Donald R. Downing, 2010-04 Marriage is God's idea He has no bad ideas He brought Eve to Adam married them and they lived as husband and wife for over 900 years Genesis 2:21-25 and 5:5 By this we can conclude that divorce was not God's idea but Satan's idea to destroy God's ideas plans and purpose of marriage between a man and a woman We seek to find the right person when the greater picture is to be the right person Man sets the time for the wedding but God sets the time for the marriage There is a great difference between a wedding and a marriage Many walk down the aisle to be wedded for all the wrong reasons Saying I do and placing wedding rings upon fingers does not always mean they are married within their hearts This book reveals that a man and a woman may marry and yet not be a true husband and wife It stresses the importance of friendship courtship engagement and being married from the heart Introducing a revolutionary approach to the covenant of marriage this book addresses commitment romance love keeping a right heart a sound mind and a pure relationship Dr Donald R Downing is a heart physician and specialist from God to the body of Christ He has written over 12 books and considers Marriage from the Heart to be one of his most important writings He believes the only way to defeat the high rate of divorce and separation is to restore romance to the relationship and to be truly married from the heart

Social Issues in Our Generation Johnson F. Odesola, 2019-12-19 It occurs to me that you and I can think through the social concerns afflicting the developing nations and by so doing stir others to actions towards real transformation We must start thinking about those issues so as to proffer possible solutions that will help us to create something like egalitarian society Thus my sincere concern in this writing is the main social issues particularly with those of us who profess to be Christian and that we are obliged to face and resolve in the light of one faith Many Christians have assimilated the anti intellectual moods of today's world They do not want to be told to use their minds and they say Some even declare it is unscriptural to do so In response I draw your attention to Paul's injunction not to be conformed to the world but instead to be transformed by the renewing of our mind with a view to discerning God's pleasing and perfect will
