**Google App for Beginner's** Boniface BENEDICT, 2020-12-19 Google apps were first launched in 2006 and then it was rebranded as G Suite in 2016 but year in year out Google changed their features and of course when using any Google applications you will always be notified when there are any changes All the apps in this book are essential and important Over the years Google has been able to cover the lapses in technology by introducing applications that will solve our problems and at the same time make things easier for us to do We have different types of Google applications and they are all interrelated That is they work hand in hand with each other Examples include Google Drive which gives you the platform to save all of your documents on the cloud without the fear of losing all documents when you lose your phone Once you have a Google account you automatically have 15GB of free space so you can save anything you want to save We also have Google docs On this app you can type anything you want on it it has most of the normal Microsoft words features so it makes it easy for you type especially for those who will like to use their phone to type but the difference between this and Microsoft is whatever changes you make on the documents it automatically saves it It is not like Microsoft word that you still need to save There is also Google Slides and sheets It makes it possible for you to create a presentation and also create new spreadsheet documents Let's not forget Google contacts Google calendar Google duo Google photos All these have their unique characteristics and you will be taught how to set up each Google application effectively in this book In this book you will learn how to set up and use Google Drive Google doc Google forms and Google Sheets Google Slides Google Duo Google

Keep Google Photos Google Calendar Google contact Google Classroom Grab a copy and learn about these amazing apps
