Resource Manual for Institute in Urban Community College Librarianship ,1974 **Waterloo Sunrise** John
Davis,2024-03-26 This is an urban history of London during the pivotal years of the 1960s and 1970s when the metropolis
was transformed from an industrial city that the Victorians might have recognised to an embryonic modern world city
Previous work on London in these years has tended to focus upon the 1960s in particular the Swinging London phenomenon
Mary Quant Carnaby Street and the King s Road Chelsea all appear in these pages but it is argued that the swinging moment
of the mid sixties was a passing symptom of a much broader transformation from an industrial to a service based city and it is
that transformation which this book examines London is too complex and diverse a city to be comprehended in a simple
linear narrative this book adopts instead an innovative approach to urban history by which London life and London s
transformation are examined through a number of case studies looking at specific themes and areas of the city Consumerism
and the experience economy home ownership and gentrification deindustrialisation and deprivation racial tension and
unemployment the attrition of public services and the steady loss of confidence in public agencies national and local emerge
as overarching themes from the individual case studies in this book Their combined effect it is argued was to prepare the
ground for the Britain that Margaret Thatcher is usually held to have created after 1979 without Thatcher herself having
anything to do it The Oxford Handbook of Undergraduate Psychology Education Dana S. Dunn,2015-08-07 The Oxford
