**ACCOUNTING
MARKING GUIDELINE
(MEMORANDUM)**

MARKS: 300

GENERAL PRINCIPLES:

- 1 Where calculations are required, award full marks for the final answer. If the answer is incorrect, mark the workings provided. If the working amount is shown as a final answer, award the relevant marks allocated for workings (Income statement), and not the method mark for the answer.
- 2 Method marks are denoted by ££.
 - For calculations and final totals, at least one part of the workings must be correct for the method mark to be earned. For totals – inspect operation and reasonableness of answer before awarding the mark.
 - In cases where answers of previous questions must be used (carried forward answers), check the transfer.
 - Unless otherwise indicated, the positive or negative effect of any figure must be considered to award the mark. If no sign (+/-) or bracket is provided, assume that the figure is positive.
- 3 For questions requiring explanations and comments (2 marks or more), award part-marks. A good comment will normally mention and explain a point. Beware of different ways to say the same thing. Note that the marking guideline only offers suggested answers – read and try to make sense of what the learner is attempting to convey, and award marks accordingly.
- 4 Where penalties are applied (such as foreign items, misplaced items, omitted details, etc.), the marks for that section cannot be a negative. Penalties will be indicated next to the relevant questions where applicable. *Where foreign items are included in any calculation, full marks cannot be awarded.*
- 5 Markers are advised to work through the question paper and compare with this guideline, before marking. If adjustments are necessary, do so within the framework of the mark allocation.
