- What is expected behavior and the HIPAA performance standards
- When they are not meeting these expectations
- What must be done to correct the inappropriate behavior and an improvement plan with a time line for its accomplishment
- Consequences if improvement does not occur

The progressive discipline process is meant to assist the workforce member in recognizing the seriousness of their behavior and encouraging their commitment to changing these behaviors. In many situations, informal counseling will be utilized by the supervisor after consultation, as appropriate with Human Resources, and the Privacy Officer or Security Officer to resolve issues prior to the formal corrective action process. The Privacy Officer or Security Officer should be consulted to determine that a particular behavior did in fact violate HIPAA or a HIPAA policy. The Privacy Officer or Security Officer will also thereby determine if the behavior in question must be reported as a HIPAA violation.

An informal counseling session is used by management as a reminder to the workforce member of the policies and practices. Supervisors can utilize informal counseling to explain the HIPAA performance expectations of the job to the
