Collins, 2018-08-02 How do we live in and with empire The contributors to Ethnographies of U S Empire pursue this question by examining empire as an unequally shared present Here empire stands as an entrenched if often invisible part of everyday life central to making and remaking a world in which it is too often presented as an aberration rather than as a structuring condition This volume presents scholarship from across U S imperial

formations settler colonialism overseas territories communities impacted by U S military action or political intervention Cold War alliances and fissures and most recently new forms of U S empire after 9 11 From the Mohawk Nation Korea and the Philippines to Iraq and the hills of New Jersey the contributors show how a methodological and theoretical commitment to ethnography sharpens all of our understandings of the novel and timeworn ways people live thrive and resist in the imperial present Contributors Kevin K Birth Joe Bryan John F Collins Jean Dennison Erin Fitz Henry Adriana Mar a Garriga L pez Ol via Maria Gomes da Cunha Matthew Gutmann Ju Hui Judy Han J K haulani Kauanui Eleana Kim Heonik Kwon Soo Ah Kwon Darryl Li Catherine Lutz Sunaina Maira Carole McGranahan Sean T Mitchell Jan M Padios Melissa Rosario Audra Simpson Ann Laura Stoler Lisa Uperesa David Vine *Automobility and the City in Twentieth-Century Britain and Japan* Simon Gunn, Susan C. Hybrid Rule and State Formation Shelley Hurt, Ronnie Lipschutz, 2015-06-26 Neoliberalism has been the reigning ideology of our era For the past four decades almost every real world event of any consequence has been traced to the supposedly omnipresent influence of neoliberalism Instead this book argues that states across the world have actually grown in scope and reach The authors in this volume contest the view that the past three decades have been marked by the diminution of the state in the face of neoliberalism They argue instead that we are witnessing a new phase of state formation

which revolves around hybrid rule that is a more expansive form of state formation that works through privatization and seeks pacification and depoliticization as instrumental to enhancing state power Contributors argue that that the process of hybridization and hybrid rule point towards a convergence on a more authoritarian capitalist regime type possibly but not necessarily more closely aligned with the Beijing model one toward which even the United States with its penchant for surveillance and discipline appears to be moving This volume will shed new light on evolving public private relations and the changing nature of power and political authority in the 21st century and will be of interest to students and scholars of IPE international relations and political theory The Pennsylvania Railroad Albert J. Churella,2024-11-26 The final volume of Albert J Churella s landmark series The Pennsylvania Railroad concludes the story of the iconic transportation company covering its long decline from the 1930s to its merger with the New York Central Railroad in 1968 Despite some parallels with World War I the experience of World War II had a substantially different impact on the Pennsylvania Railroad The introduction of new technologies personnel and commuter routes had significant effects on this giant of American transportation The recession of 1958 sparked a period of decline from which it and many other railroads struggled to fully recover The Pennsylvania Railroad The Long Decline 1933 1968 provides an unparalleled look at the final years of this legendary company which in its prime was the largest corporation in the world with a budget second only to that of the US federal government **A History of Force Feeding** Ian Miller,2016-08-17 This book is Open Access under a CC BY license It is the first monograph length study of the force feeding of hunger strikers in English Irish and Northern Irish prisons It examines ethical debates that arose throughout the twentieth century when governments authorised the force feeding of imprisoned suffragettes Irish republicans and convict prisoners It also explores the fraught role of prison doctors called upon to perform the procedure Since the Home Office first authorised force feeding in 1909 a number of questions have been raised about the procedure Is force feeding safe Can it kill Are doctors who feed prisoners against their will abandoning the medical ethical norms of their profession And do state bodies use prison doctors to help tackle political dissidence at times of political crisis *Critical Times in Greece* Dimitris Dalakoglou,Georgios Agelopoulos,2017-10-20 This volume brings together new anthropological research on the Greek crisis With a number of contributions from academics based in Greece the book addresses a number of key issues such as the refugee crisis far right extremism and the psychological impact of increased poverty and unemployment It provides much needed ethnographic contributions and critical anthropological perspectives at a key moment in Greece s history and will be of great interest to researchers interested in the social political and economic developments in southern Europe It is the first collection to explore the impact of this period of radical social change on anthropological understandings of Greece **A People's History of Computing in the United States** Joy Lisi Rankin,2018-10-08 Does Silicon Valley deserve all the credit for digital creativity and social media Joy Rankin questions this triumphalism by revisiting a pre PC time when schools were not the last stop for mature consumer technologies but

flourishing sites of innovative collaboration when users taught computers and visionaries dreamed of networked access for all

To Rule the Waves Bruce Jones, 2021-09-14 From a brilliant Brookings Institution expert an important The Wall Street Journal and penetrating historical and political study Nature of the critical role that oceans play in the daily struggle for global power in the bestselling tradition of Robert Kaplan's The Revenge of Geography For centuries oceans were the chessboard on which empires battled for supremacy But in the nuclear age air power and missile systems dominated our worries about security and for the United States the economy was largely driven by domestic production with trucking and railways that crisscrossed the continent serving as the primary modes of commercial transit All that has changed as nine tenths of global commerce and the bulk of energy trade is today linked to sea based flows A brightly painted forty foot steel shipping container loaded in Asia with twenty tons of goods may arrive literally anywhere else in the world how that really happens and who actually profits from it show that the struggle for power on the seas is a critical issue today Now in vivid closely observed prose Bruce D Jones conducts us on a fascinating voyage through the great modern ports and naval bases from the vast container ports of Hong Kong and Shanghai to the vital naval base of the American Seventh Fleet in Hawaii to the sophisticated security arrangements in the Port of New York Along the way the book illustrates how global commerce works that we are amidst a global naval arms race and why the oceans are so crucial to America's standing going forward As Jones reveals the three great geopolitical struggles of our time for military power for economic dominance and over our changing climate are playing out atop within and below the world's oceans The essential question he shows is this who will rule the waves and set the terms of the world to come
