

Honda's heavy duty hybrid uses twin variable speed electric motors to control the dual tracks while the powerful GX390 4-stroke OHV engine drives the auger. Dual-stage discharge clears a 91 cm (36 in) path and the DC electric auger height adjuster can be adjusted "on the fly" or set to automatically raise at return path.

Standard work light, 12 volt DC electric start and electric joystick chute control provide the ultimate in convenience and ease-of-use.
