**Microliteratures** Jesús R. Velasco, 2025-07-15 Microliteratures is an innovative examination of writings done in the margins of medieval manuscripts and early modern books Not always as formal as glosses sometimes feverish and abbreviated these marginal writings or microliteratures are the product of readers thinking with the text at the center of the page Jes s R Velasco argues that microliteratures are not private annotations but rather a humanistic activity performed in the public sphere These marginal engagements with texts are made public to future readers of the same book Surveying the microliteratures of a wide range of medieval and early modern Iberian genres legal religious chivalric and political texts Velasco finds that in the shared space and time of reading microliterary actions and artifacts are also models of public humanities work that connects texts to contemporary issues Microliteratures emerge from this ambitious book as a way of understanding the self as a reflective and politically engaged reader in conversation with past present and future readers as contemporaries *L'Information historique* ,1989 **Journal général de l'imprimerie et de la librairie** ,1895
