*Don't Pay for a Promise!* John McHardy,2000-11-01 Growing out of a project to help the author deal with his own credulity Dont Pay for a Promise is a treasure house of information distilled from hundreds of Government publications These publications are constantly being revised and updated and the reader should consult them regularly for the latest facts However because each publication must stand on its own there is a patchwork character to the material and finding answers for a particular situation can take time By capturing the essence of these publications John McHardy has created a powerful resource for anyone who has ever agonized over an offer that seems too good to be true In 14 compact chapters the book deals systematically with the diverse types and guises of consumer fraud offering concrete advice on how to recognize and respond to each of them The first chapter provides information common to all types of fraud and serves as a foundation for the rest of the book The next eleven chapters then cover individual aspects of the subject For example Chapter 2 Identity Theft

examines topics that range from simple theft to the less obvious hazards of automatic debit and electronic banking A typical chapter begins with an outline of pertinent laws and regulations and continues with one or more sections on particular issues For example Chapter 3 arranges the broad subject of Contests into three separate sections Within each section the material is organized under a consistent set of paragraph headings These include the promise the scam or deceptive practice warning signs that may distinguish it from a legitimate offer and ways that consumers can protect themselves or at least minimize their losses The book concludes with two chapters of reference material Chapter 13 detailing the many organizations that can offer help in the fight against fraud and Chapter 14 containing the full text of FTC Telemarketing Sales Rule
