Conforms to ANSI ASIS standards **4-Square Human Development System** Quin Childress, Childress Consulting, Pat Childress, 2007-03 Exhaustive research has been done on employee behavior and productivity in the workplace. The findings are pretty consistent. People are largely underutilized and the majority of management and employees are unhappy with their work environment. Even worse, there hasn't been a straightforward comprehensive process for human development in the workplace. There have been many attempts but the choices are often cumbersome, expensive, or incomplete. Most don't satisfy the real need for human change management that contributes to organizational success. The 4 Square HDST was designed to be a complete system for workforce change and sustained employee engagement. It effectively brings management and employees together on common interests once and for all. This powerful management tool generates dramatic rapid improvements in morale. Gets management and employees working together on the same page. Meets the needs and wants of an organization's best employees. Provides an effective process for dealing with performance and behavior issues. Keeps everyone focused on strategic measurable objectives. Best of all, it's a user-friendly, documented system focused on helping people and organizations succeed. Finally, a practical tool is available for all levels of management. Childress Consulting is a management and human resource consulting firm. They have been helping private and public sector organizations thrive in organizational and employee performance for the past fourteen years. **The ISO 9001:2015 Implementation Handbook** Milton P.
