Theatre in the Classroom, Grades 6-12 Jim Patterson, 2016-07-14 This latest edition *Theatre in the Classroom* Grades 6-12 equips prospective theatre teachers with key instructional methods and proven strategies for student learning. Building on the previous edition's strengths, Patterson extensively modified and updated the entire text, incorporating the most recent theatre standards by the National Coalition for Core Arts Standards. This indispensable guide, whose theoretical and philosophical underpinnings and practical classroom applications endow it with a lifetime of use, includes ideas for resource portfolios, checklists, rubrics, and other assessment tools. Of additional value are discussions concerning managing the classroom, linking school play production with classroom learning, and recognizing and responding to classroom diversity. Patterson details important considerations and resources for planning productions, ranging from those available from professional organizations to those found within the community to those generated by students. He believes theatre learning must go beyond the study and performance of established play scripts and stresses the importance of productions written, directed, designed, and managed by students. End of chapter sections include Extension Activities, ways to help prospective teachers further explore the subject in the college-level methods course, Stay Connected websites for additional resource and research materials, and Professional Development suggestions for expanding personal and career development. **Teaching**

Literature in Modern Foreign Languages Fotini Diamantidaki, 2019-04-04 From plays to poetry, *Le Petit Nicolas* to the Association for Language Learning (ALL), *Literature in Modern Foreign Languages* shows trainee teachers of MFL, teachers in schools, teacher educators, how literature can be an essential tool for developing students' cultural awareness as well as language skills. With contributions from Ruth Heilbronn, Jane Jones, and other leading scholars, it covers a wide range of approaches, including looking at how to support students to develop the skills they need to read and discuss texts, and how to use stories as a pedagogic tool rather than just a way to develop reading skills. Examples of teaching French, German, Japanese, Mandarin, and Spanish are used throughout, but the book draws together resources and strategies for use in teaching all modern foreign languages. Supporting students to develop into creative, reflective teachers, this book offers support for readers to develop their own tasks for their pupils and questions throughout to keep them engaged and encouraging them to critically engage with the content. Seemingly daunting articles are made much more approachable for readers with windows on research, which provide a summary of relevant research papers with full reference details for follow-up. **Mapping Comprehensive**
