

Home Energy Audit

Simple things that you can do around your home to save energy.

QUICK TIPS

- 1 Check for air leaks
- 2 Use less heated water

- 3 Use energy efficient lighting
- 4 Program your thermostats

Outlet and Switches

Air can escape from behind your outlets and light switches causing up to a 5% heat loss in your home. Add foam draft stoppers behind your outlets and switch covers to reduce heat loss through these areas.

Lighting

Replace your old incandescent bulbs with energy efficient CFLs or LED bulbs.

Programmable Thermostats

You can save 2% of your energy use per degree that you drop your thermostat. Program your thermostat 10° lower when you leave the house or while you are sleeping.

Door Weatherstripping

If you see daylight coming from under your exterior doors you're losing heating and cooling. Install a threshold or use a door draft snake to block the air from escaping.

Attic Ducts

You can lose up to 40% of your heating and cooling through improperly insulated ductwork. Insulate with special insulation with at least an R-6 rating. Use metal-foil-faced tape or mastic-based duct sealant.

Windows

Insulate around your windows or install a window film insulating kit to prevent heat loss.

Faucets

Washing a sink full of dishes with a standard 2.2 GPM (gallons per minute) faucet aerator can use about 20 gallons of water. By switching to a more efficient 1.5 GPM aerator you can reduce the amount of heated water used while rinsing dishes. Always use cold water whenever possible.

Showerheads

Some showerheads use up to 50 gallons of hot water per 10 minute shower. Switching to a more efficient showerhead (2.5 GPM or less) can save you at least half of the amount of energy required to heat the water used for your shower.

Furnace Filter

Remember to change your furnace filter every 4-6 weeks during the colder seasons to keep your furnace running as clean and efficient as possible.

You can save up to 30% on your energy costs.

If you want to save more you can contact an Energy Auditor to check your home for more inefficiencies.
