Eng 1511 Question Paper June 2013 Uni:

Meaning and Power in the Language of Law Janny H. C. Leung, Alan Durant, 2018-01-18 Legal practitioners linguists anthropologists philosophers and others have all explored fundamental challenges presented by language in formulating interpreting and applying laws Building on centuries of interaction between legal practice and jurisprudence the modern field of law and language or forensic linguistics brings insights in linguistics and related fields to bear on topics including legal drafting and translation statutory interpretation expert evidence on language use and dynamics of courtroom interaction This volume presents an interlocking series of research studies engaged with different legal jurisdictions and socio political contexts as well as with the more abstract notion of law Together the chapters written by international leaders in their fields highlight recent directions in research and investigate in particular how law expresses yet also conceals power relations in its crafted use of words and in the gaps and silence between those words

Green Infrastructure for Sustainable Urban Development in Africa John Abbott, 2013-07-03 This book shows for the first time how green infrastructure can work in an African urban context On one level it provides a major rethinking of the role of infrastructure in urban society since the creation of networked infrastructure in the early twentieth century On another it explores the changing paradigms of urban development through the fundamental question of how decisions are made With a focus on Africa's fast growing secondary towns where 70 per cent of the urban population live the book explains how urban infrastructure provides the key to the relationship between economic development and social equity through the mediation of natural resources Adopting this view enables investment to be channelled more effectively to provide the engine for economic growth while providing equitable services for all residents At the same time the mediation of resource flows integrates the metabolism of the city into the wider ecosystem This vision leads to a new way of thinking about infrastructure giving clear definition to the concept of green infrastructure On the basis of research gathered throughout an extensive career John Abbott draws in particular from his experience in Ethiopia to demonstrate the ways in which infrastructure needs to respond to the economies societies and natural environments of twenty first century urban Africa
